Copper Sulfate, Ferrous Sulfate, Manganese Sulfate, Zinc Sulfate)

**WARRANTY:** Since weather, crops, soil, and other conditions may vary; the seller makes no warranty of any kind, express or implied, concerning this product. The user assumes all risk of use and handling whether or not in accordance with directions or suggestions.

### COMPATIBILITY

Always check for compatibility with other products prior to use.

### GENERAL INFORMATION

**Carbond High Yield** - Is designed as a foliar fertilizer, complexed with humic acid.

**Carbond High Yield** - Is developed as an easy to use formulation that is highly compatible with most fertilizers and foliar sprays.

### APPLICATION RATES

**Agricultural applications:** 2 to 8 qts per acre apply as needed during the growing season, or as directed. It should be applied in a minimum of 5 to 50 gallons of water.

**Turf and Ornamental applications:** 2 to 8qts/ac or 0.325 to 1.3 fl oz/1000 ft<sup>2</sup> applied weekly to biweekly, or as directed throughout the growing season in a minimum of 40 to 75 gallons of water.

**Methods of application:** **Carbond High Yield** can be applied as a foliar spray or chemigated with a maximum of 0.2 inches of water.

**Aerial Application:** Use a minimum of 10 gallons of water per acre. If less water is used foliage injury may occur. Aerial application should not exceed 5 ounces per gallons of water. Avoid spraying during high temperatures or when humidity is very low. For safest and best results, plants should be actively growing and free of stress.

---

## Hazard Not Otherwise Classified

Hazard Statement: None

### Precautionary Statements / First Aid Measures

Wash face, hand thoroughly after handling. Get medical advice/attention if you feel unwell.

**Inhalation:** Remove person to fresh air and keep comfortable for breathing. **Skin contact:** Wash skin with plenty of water.

**Eye contact:** Rinse cautiously with water for several minutes.
