

Brandt® Sequestar® 14% Cu

Water Soluble EDTA Chelated Micronutrient

Guaranteed Analysis

Copper (Cu) 14.0%
14.0% Chelated copper

Derived from copper EDTA.

F76

General Information

BRANDT SEQUESTAR 14% Cu is a fully chelated, water soluble, powdered form of copper EDTA and is recommended for the prevention and correction of copper deficiency in crops. The preferred use is as a soil application to prevent the deficiency although it may also be used as a foliar spray to provide correction when a soil application is impractical.

Directions For Use

Soil Application: BRANDT SEQUESTAR 14% Cu is recommended for use on all types of soil. To ensure uniform coverage, the product should be dissolved in water or fluid fertilizer, or dry blended with water soluble fertilizers. For trees or individual plants, the chelate may be blended with an inert (such as soil or sand) or sprinkled directly on the soil uniformly under the plant's drip line, then watered in. Soil applications may also be made by dissolving in water and then mixing or metering into drip, sprinkler or furrow irrigation systems.

Vegetable Crops (including beans, carrots, celery, cucumbers, lettuce, melons, onions, peas, peppers, potatoes, spinach, sweet corn, tomatoes):	2 to 4 lb per acre.
Field Crops (including alfalfa, corn, dry beans, peas, forage grasses, rice, safflower, sorghum, sugar beets, sugarcane):	2 to 4 lb per acre.
Tree And Vine Crops (including almond, apple, apricot, avocado, berry, cherry, citrus, grape, mango, olive, pear, peach, pistachio, plum, walnut):	2 to 5 lb per acre or 1/2 to 2 oz per inch of tree diameter.
Ornamental Shrubs And Trees (including Azaleas, Gardenias, Junipers, Pines, Roses):	1 tbsp for small shrubs and up to 1 tbsp per inch of tree diameter for large trees and shrubs.
Turf (for professional use only):	1/2 lb per 10,000 sq ft or 2 lb per acre.

The rates given in the table above are based on broadcast application. If broadcast rates are used for spot or banded applications, phytotoxicity may result.

Aerial Application: Apply 1/3 lb of BRANDT SEQUESTAR 14% Cu per acre in at least 10 gal of water. For application timing and frequency, refer to appropriate foliar application recommendation.

Foliar Application: BRANDT SEQUESTAR 14% Cu may be applied in water or in combination with most pesticides. After the correct dilution has been made, the spray solution should be buffered to

pH 6-6.5. Thorough coverage and the use of wetting agents often enhance nutrient uptake from foliar sprays. Application rates and dilution factors depend on crop sensitivity, the amount of foliage to be sprayed and the application method. Avoid applying this product when plants are suffering from moisture stress. If there is any doubt, apply the spray solution to a small test area of the crop or foliage to assess any undesirable effects or phytotoxicity before general application.

Trees (citrus):	Apply 1 to 2 lb per 100 gal of cover spray any time except during bloom.
Tree & Vine Crops (excluding citrus):	Apply 1 to 2 lb per acre in sufficient spray volume for thorough coverage (25 gal minimum) at dormant/delayed dormant before bloom, then after full bloom at 2 to 3 week intervals as needed. NOTE: For deciduous crops when fruit is present, apply 1 lb per acre in 50-100 gal of water.
Vegetable & Field Crops (ground equipment):	Apply 1/3 to 1-1/3 lb per acre in sufficient spray volume for thorough coverage (25 gal minimum).
Turf (for professional use only):	<i>General Turf:</i> 1 tbsp per 1,000 sq ft. <i>Golf Greens:</i> 1 tsp per 1,000 sq ft. Apply in sufficient spray volume for thorough coverage.

Do not apply near water, storm drains, or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, and sweep any product that lands on the driveway, sidewalk, or street, back onto your lawn/garden. Check with your local Cooperative Extension Agency to obtain specific information on local turf best management practices.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.html>. Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the container or label.

WARNING: Harmful if swallowed.

Precautionary Statements: Wash thoroughly after handling. Do not eat, drink or smoke when using this product. **First Aid:** If swallowed: Rinse mouth. Call a poison center/doctor if you feel unwell. **Storage and Disposal:** Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of contents/container in accordance with local authority requirements.

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov
LIMITED WARRANTY: Brandt Consolidated, Inc. ("BCI") warrants that the Product conforms to the chemical description given on this label and is reasonably fit for the purpose stated when used in accordance with label directions under normal conditions of use. BCI and Seller make no other warranties, express or implied, including warranty of merchantability or fitness for a particular purpose. Buyer and User accept all risks arising from any use of this Product. To the extent allowed by law, BCI and the Seller shall not be liable to the Buyer or User of this Product for any consequential, special, incidental or indirect damages.
