WILBUR-ELLIS[®]
Ideas to Grow With[™]

GUARANTEED ANALYSIS

Total Nitrogen (N)	3.00%
3.00% Urea Nitrogen	
Available Phosphate (P ₂ O ₅)	33.00%
Soluble Potash (K ₂ O)	32.00%

DERIVED FROM: Phosphoric Acid, Potassium Hydroxide, Potassium Phosphate, Urea, and Potassium Phosphite.

KEEP OUT OF REACH OF CHILDREN PRECAUTION

Do not ingest. Avoid contact with skin, eyes or clothing.
Avoid breathing dust, vapor or mist.

FIRST AID

In all cases, call a poison control center or doctor for further treatment advice.

IF SWALLOWED, call a poison control center or doctor immediately. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person. **IF ON SKIN**, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. **IF INHALED**, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. **IF IN EYES**, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

For chemical spills, leaks, fire or exposure, call CHEMTREC: (800) 424-9300.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

Store in a safe manner. Store in original container only and keep tightly sealed when not in use. Dispose of unused product and empty containers in accordance with federal, state and local regulations.

GENERAL INFORMATION

MAX SET[®] 68 POST HARVEST is designed primarily for foliar applications to prevent or correct nutrient deficiencies in a wide range of agronomic and ornamental plants. Its use is suggested as a supplement to a regular, balanced fertilizer program to enhance yields and improve quality.

Application of **MAX SET 68 POST HARVEST** is a means of obtaining a quick response to needed elements. Foliar applications of **MAX SET 68 POST HARVEST** may be particularly beneficial during periods of peak nutrient demand, for crops grown on soils having poor nutrient availability or to crops suffering from a weakened root system.

MAX SET 68 POST HARVEST should be used as part of a comprehensive Total Nutrition System[®] for optimizing plant growth, development, yield and quality.

DIRECTIONS FOR USE

MAX SET 68 POST HARVEST may be applied as a foliar spray by air, ground concentrate or dilute. Maintain agitation to provide uniform distribution within spray tank. Use of a high quality CPDA approved spreader, such as R-11[®], at recommended rates to improve spray cover is usually advised. Do not apply when plants are under excessive heat or moisture stress. Applications of foliar nutrients to leafy vegetables or soft-skinned fruit during periods of excessive temperatures may cause cosmetic injury. Applications of certain micronutrients to fleshy fruit within 30 days of harvest may result in staining of rind or skin.

Add **MAX SET 68 POST HARVEST** to spray tank that is at least 50% full with water and maintain agitation. **MAX SET 68 POST HARVEST** should dissolve rapidly and distribute uniformly. When water temperatures are cold, allow extra time for this product to completely dissolve. Do not exceed 2 pounds of **MAX SET 68 POST HARVEST** per gallon of water. Unless otherwise specified on tank mixed pesticide labels, add pesticide last. When combining with products packaged in water-soluble pouches, allow pouches to dissolve completely before adding nutrients.

Thorough and even spray coverage is essential for maximum benefit and to prevent spray damage.

APPLICATION TIMING: Application with spray oils may only be made post-harvest, dormant or delayed dormant. When used with in-season cover sprays, do not apply in combination with spray oils or crop oil concentrates. Seasonal growing conditions vary greatly and best results will be obtained by consulting a Wilbur-Ellis representative for accurate rate and timing requirements to meet local conditions.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm>

DECIDUOUS FRUIT AND NUTS (Including, but not limited to, almonds, apples, apricots, cherries, nectarines, peaches, pears, plums, prunes and walnuts): Apply 5-10 pounds per acre per application. Do not make applications in less than 50 gallons of water by ground. Do not apply during bloom or to fruit trees during the later period of fruit maturation when sugars accumulate.

GRAPES: Use 5-10 pounds per acre by ground in a minimum of 50 gallons of water per acre. Applications may be made when leaves emerge, pre-bloom and post-bloom.

COMPATIBILITY

MAX SET 68 POST HARVEST is formulated to achieve an acidic spray solution. Final spray solution pH will vary depending on rate, water volume and quality. Do not combine with copper crop protection chemicals if spray solution has a pH of 6.5 or less. Always jar test new combinations for compatibility prior to field mixing.

Do not apply in spray tank below pH of 4.0. Excessive acidification may solubilize metals and cause phytotoxicity. Always test spray tank pH prior to application. **MAX SET 68 POST HARVEST** is not compatible with metal hydroxides, oxides, sulfates or chlorides. Use only metal nitrates when tank mixing with this product. Do not combine with alkaline materials that will raise the pH of the spray solution, such as sodium borate. Do not combine with copper crop protection chemicals or to crops within 30 days of having been treated with copper crop protection chemicals.

Do not apply with silicone-based adjuvants at rates exceeding 4 ounces of organosilicone per 100 gallons of water. Do not apply in combination with 2 or more emulsifiable concentrate- or oil-based pesticide formulations. Do not apply with fixed copper pesticides or within 30 days following the copper application.

Conditions of Sale and Limitation of Warranty and Liability:

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using the product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.

The Directions for Use of the product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of many different factors including, without limitation, manner of use or application, weather, combination with other products, or crop conditions. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold Manufacturer and Seller harmless from any claims relating to such factors.

Seller warrants that this product conforms to the chemical description on the label. EXCEPT FOR THIS WARRANTY, THE PRODUCT IS FURNISHED "AS-IS," AND NEITHER SELLER NOR MANUFACTURER MAKES ANY OTHER WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE SELECTION, PURCHASE OR USE OF THIS PRODUCT; SELLER AND MANUFACTURER SPECIFICALLY DISCLAIM ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Buyer and User accept all risks arising from any use of this product, including without limitation uses contrary to label instructions, under abnormal conditions, or under conditions not reasonably foreseeable to (or beyond the control of) Seller or Manufacturer.

To the extent permitted by law, neither Manufacturer nor Seller shall be liable for any incidental, consequential or special damages resulting from the use or handling of this product. THE EXCLUSIVE REMEDY OF THE BUYER OR USER, AND THE EXCLUSIVE LIABILITY OF MANUFACTURER AND SELLER, FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THIS PRODUCT, OR, AT THE ELECTION OF MANUFACTURER OR SELLER, THE REPLACEMENT OF THE PRODUCT.

These Conditions of Sale and Limitation of Warranty and Liability shall be interpreted in accordance with the laws of the State of California, excluding its conflicts of laws rules, and may not be amended by any oral or written agreement.
