STREAMLINE® HERBICIDE

For tank mix with “Krenite” herbicide to increase spectrum of weeds and brush controlled in labeled non-crop sites.

EPA Reg. No. 432-1570

Product Bulletin

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF TEXAS

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA. This product bulletin should be in the possession of the user at the time of application of the product. All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its label. Always read this FIFRA 2(ee) bulletin and the entire label on the product container before using this product.

Bayer CropScience will not be responsible for losses or damages resulting from the use of this product in any manner not specifically instructed by Bayer CropScience. User assumes all risks associated with such non-labeled use.

Streamline Herbicide can be tank-mixed with “Krenite” herbicide to increase spectrum of weeds and brush controlled in labeled non-crop sites. Apply Streamline Herbicide at rates of 1.75 to 11.5 ounces product per acre in a tank-mix with “Krenite” at the rate of 1.5 - 6.0 gallons product per acre.

Before using Bayer CropScience Streamline Herbicide and Albaugh “Krenite” herbicide read and follow all applicable directions, restrictions and precautions on the EPA-registered label for each product.

Read and follow all label mixing instructions.

IMPORTANT PRECAUTIONS:

Certain species may, in particular, be sensitive to low levels of Streamline Herbicide including but not limited to, conifers (such as Douglas fir, Norway spruce, ponderosa pine and white pine), deciduous trees (such as aspen, Chinese tallow, cottonwood, honey locust, magnolia, poplar species, redbud, silver maple, and willow species) and ornamental shrubs (such as arborvitae, burning bush, crape myrtle, forsythia, hydrangea, ice plant, magnolia, purple plum and yew).

Injury or loss of desirable trees or vegetation may result if Streamline Herbicide® is applied on or near desirable trees or vegetation, on areas where their roots extend, or in locations where the treated soil may be washed or moved into contact with their roots. Consider site-specific characteristics and conditions that could contribute to unintended root zone exposure to desirable trees or vegetation. Root zone areas of desirable trees or vegetation are affected by local conditions and can extend beyond the tree canopy. If further information is needed regarding root zone area, consult appropriate state extension service, professional consultant or other qualified authority.

Injury to or loss of desirable trees or vegetation may result if equipment is drained or flushed on or near these trees or vegetation, or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots.

IMPORTANT RESTRICTIONS:

Do not apply this product in areas where the roots of desirable trees and/or shrubs may extend unless injury or loss can be tolerated. Root zone areas of desirable trees or vegetation are affected by local conditions and can extend well beyond the tree canopy.

Do not apply this product if site-specific characteristics and conditions exist that could contribute to movement and unintended root zone exposure to desirable trees or vegetation unless injury or loss can be tolerated.

During period of intense rainfall, applications made to roadsides or other non-crop areas, to soils saturated with water, or soils through which rainfall will not readily penetrate may result in runoff and movement of Streamline Herbicide. Do not apply Streamline Herbicide when these conditions exist.

Do not apply more than 11.5 ounces Streamline Herbicide per acre per year on a broadcast acre basis.

For MEDICAL And TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577.
For PRODUCT USE Information Call 1-866-99BAYER (1-866-992-2937).

*As with any herbicide product, always read and follow label directions.
