KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS

Harmful if swallowed. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes or clothing. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse. This product may cause an allergic reaction in sensitive individuals.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

GENERAL INFORMATION

PLACEMENT PROPAK is a convenient formulation of encapsulating deposition aid/drift retardant and proprietary blend of ammoniated salt solution.

PLACEMENT PROPAK is designed for use with herbicides that are labeled for application with the addition of 8.5 to 17 pounds of ammonium sulfate per 100 gallons of spray solution. In addition, PLACEMENT PROPAK has been formulated with deposition aid and drift retardant for the convenience of the professional spray applicator.

DIRECTIONS FOR USE

For Terrestrial Use Only - Not For Aquatic Use

Use PLACEMENT PROPAK at a rate of 1 gallon per 100 gallons of spray solution when herbicide labels suggest or recommend the use of ammonium sulfate in conjunction with the herbicide.

PLACEMENT PROPAK has been specifically designed for use with spray application volumes of 10 gallons per acre or greater. If spray volumes of less than 10 gallons per acre are desired, then use PLACEMENT PROPAK at a rate of 2 gallons per 100 gallons of spray solution.

AgriSOLUTIONS[™]

When using glyphosate type products at rates above 32 fluid ounces per acre:

The rate of PLACEMENT PROPAK should be increased 4 fluid ounces per 100 gallons for every additional fluid ounce per acre of the glyphosate type herbicide, up to a maximum of 2 gallons per 100 gallons of spray mixture.

Herbicide rate (fluid ounces per acre)	PROPAK rate (gallons per 100 gallons)
32 or less	1.00
40	1.25
48	1.50
64 or more	2.00

Under extreme environmental conditions or heavy pressure of certain hard-to-kill weeds such as velvetleaf, it may be advisable to use PLACEMENT PROPAK at a rate of 2 gallons per 100 gallons of spray solution or add additional ammonium sulfate to the spray solution.

MIXING DIRECTIONS

PLACEMENT PROPAK contains a unique formulation that is designed to encapsulate when the contents are delivered into the spray tank and exposed to the herbicide.

It is generally preferred that PLACEMENT PROPAK be added to a half full spray tank, either prior to the herbicide or at the same time with the herbicide through an inductor or other means.

STORAGE AND DISPOSAL

- 1. PROHIBITIONS:** Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.
- 2. STORAGE:** Store in original container only and keep sealed. Store in closed storage areas. Use caution when moving, opening, closing or pouring.
- 3. ADJUVANT DISPOSAL:** Improper disposal of excess spray mixtures or rinsate is a violation of federal law. Wastes resulting from use of this product should be disposed of through on-site spray application or at an approved waste disposal facility.
- 4. CONTAINER DISPOSAL:** Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or other procedures approved by state and local authorities.

Notice of Warranty

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty.
