

Turf Vantage™

NanoBoost™

ADJUVANT / PENETRANT FOR HERBICIDES

Assists herbicides by using the advanced science of nanotechnology to bind with the active ingredients in glyphosate and 2, 4-D herbicides and deliver them into the plant for a rapid, effective kill of troublesome weeds.

- Maximize effectiveness for your current herbicide program
- Low application rates for cost-effective use
- Better absorption performance
- An ideal complement to any herbicide program

Linear Exthoxylated

Compound 1.5%

STORAGE AND HANDLING

Do not allow the product to freeze. This product will freeze at or below 32 degrees. Keep container closed when not in use. Refer to the MSDS for other safety and handling information.

LIMITED WARRANTY

Monty's warrants that this product meets its manufacturing specifications. If it does not, Monty's will, at its option, replace the product or refund the purchase price. In no event shall Monty's be liable for special, incidental or consequential damages or for damages in the nature of penalties. Monty's shall not be liable in any way for claims resulting from any use of this product which is not in strict accordance with all directions, cautions and warnings on the label or labels.

PRODUCT USE

Turfvantage™ NanoBoost™ assists herbicides by using the advanced science of nanotechnology to bind with the active ingredients in glyphosate and 2, 4-D herbicides and deliver them into the plant for a rapid, effective kill of troublesome weeds.

Applications with herbicides:

1 ounce per 25 gallon mixture regardless of water amount or herbicide application rate. Apply in accordance with herbicide label directions.

USE OF MONTY'S TURF & ORNAMENTAL PRODUCTS

Monty's Turf & Ornamental Products are recommended as a supplement to your current fertilizer program. We suggest taking a soil test and have a qualified independent lab analyze the samples to determine nutrient levels in your soils and then follow recommended applications to ensure proper nutritional levels.

Monty's Turf & Ornamental products are compatible with most chemicals. When tank mixing any Monty's products with other chemicals, Monty's suggests administering a jar test and/or a strip test before adding Monty's to your tank mix. When mixing with other chemicals, it is suggested to tank mix Monty's only after diluting the chemical according to label directions. Once mixed or diluted, product should be used within 48 hours. Please call 800-978-6342 with any questions.
