24(c) Supplemental Label

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF KANSAS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This label must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions on the EPA registered label. Do not apply this product through any type of irrigation system.

This product bulletin serves as supplemental labeling for use of CORVUS™ Herbicide in Kansas. The following restrictions include specific requirements beyond those found under the "Restrictions For Use On Field Corn" section of the container label.

ENVIRONMENTAL PRECAUTIONS

AGRICULTURAL CHEMICALS HAVE THE POTENTIAL TO MOVE INTO SHALLOW GROUNDWATER. THE FOLLOWING RESTRICTIONS HAVE BEEN DEVELOPED TO PROTECT DRINKING WATER SUPPLIES.

Do not wash, load, or empty application equipment near any well, as this practice is a potential source of ground water contamination. In fields having soils with less than 15% field moisture holding capacity, special care must be taken not to over-irrigate, since substantial over-irrigation promotes the leaching of chemicals.

Do not use in the following counties in Kansas: Sedgwick, Harvey, McPherson, Reno, Rice, Pratt, Stafford, Barton, Kiowa, Edwards and Pawnee.
