GENERAL INFORMATION

MOR-ACT[®] CROP OIL CONCENTRATE is designed to combine the penetrating activity of a phytobland oil with the wetting and dispersing characteristics of a surfactant. **MOR-ACT CROP OIL CONCENTRATE** increases the efficiency of herbicides, fungicides and plant growth regulators.

Read label of pesticide carefully and observe any restrictions on combining that product with a surfactant, adjuvant or wetting agent.

Keep container tightly closed and DO NOT allow water to be introduced to contents of this container.
