

AMStrike

Water Conditioner

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRINCIPAL FUNCTIONING AGENTS

A proprietary blend of water conditioners and formulation aids.....	44%
Constituents ineffective as a spray adjuvant.....	56%
TOTAL.....	100%

All ingredients are exempt from tolerance under 40 CFR 180.

NET CONTENTS: 2.5 U.S. Gallons (9.46 L)

AMStrike

Water Conditioner

PRECAUTIONARY STATEMENT

Avoid contact with skin, eyes or clothing. Do not take internally. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse.

Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes and socks.

FIRST AID

Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

IF SWALLOWED: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

GENERAL INFORMATION

AMStrike is formulated with sequestering and complexing agents to condition water of unknown quality and should be used whenever the active ingredient label calls for the addition of ammonium sulfate (AMS) to the tank mix.

AMStrike is recommended for use with tank mixes that combine weak-acid herbicides such as glyphosate, with growth regulator herbicides such as 2,4-D, nutrients, and other active ingredient mixtures.

Does not antagonize glyphosate and helps to prevent alkaline hydrolysis.

It has been shown that 4 pints of **AMStrike** are as effective as 8-1/2 pounds of AMS in tank mixes that include glyphosate as an active ingredient.

Contains ammonium sulfate (AMS).

AMStrike does NOT contain oil or surfactant, but is compatible with these products.

DIRECTIONS FOR USE

NOT FOR SALE IN THE STATES OF WASHINGTON, CALIFORNIA AND MISSISSIPPI.

Follow the directions on the most restrictive label of the tank mix partners.

Tank mixtures should only be applied within the label recommendations of every product in the tank mixture.

Use only if a water conditioning agent containing ammonium sulfate (AMS) is al-

lowed or not excluded on the label.

Use only with pesticides that allow lower pH conditions. Do not use with copper containing active ingredients.

If the user does not have experience with the mixture being applied, perform a jar test using the order and amounts in the mixture and perform a phytotoxicity test to ensure crop safety.

NOT FOR AQUATIC USE.

USE RATES

GROUND: Apply at the rate of 1 to 4 pints per 100 gallons of spray (0.125 - 0.75% v/v).

AERIAL: Use 2 to 4 pints per 100 gallons of spray (0.25 - 0.75% v/v).

WATER CONDITIONING: Use 1 to 5 pints per 100 gallons of water as a general use water conditioning agent for pH reduction and hard water sequestering.

4 pints per 100 gallons of spray solution, has demonstrated performance equal to 8.5 lbs. AMS per 100 gallons.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. For optimal storage, store between 40° and 90° F.

DISPOSAL: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

NOTICE TO USERS: Seller warrants the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
