SECTION XI – TOXICOLOGICAL INFORMATION	
<p>Due to the formulation type, no studies have been performed on the end-use product. Information about the pheromone blend is reported here:</p> <p>Specific test values not established for pheromone blend. Using the U.S. EPA Straight-Chained Lepidopteran Pheromone (SCLP) similarity argument, the toxicity of the subject pheromone blend is placed into EPA toxicity category III-IV: CAUTION. The oral and dermal toxicity is estimated to be > 5,000 mg/Kg and > 2,000 mg/Kg. Eye and skin irritation is estimated to be minimal to moderate, respectively.</p> <p>This SCLP active ingredient blend is exempted from the requirement of a tolerance on food and feed (40 CFR § 180.1153 / Federal Register 71: 45395-45400 August 9, 2006).</p>	
SECTION XII – ECOLOGICAL INFORMATION	
<p>Due to the formulation type, no studies have been performed on the end-use product. The ecological toxicity of the pheromone attractants is similar to the toxicity of other Straight-Chain Lepidopteran pheromones (SCLPs). Comparison with chemically similar synthetically produced replicas of naturally occurring SCLPs indicate little, if any, non-target organism toxicity, and no significant environmental fate concerns for soil, water or air. Adverse effects on non target organisms (mammals, birds, and aquatic organisms) are not expected because the pheromone attractant blend is released in very small amounts to the environment and acts only on select species of insects.</p>	

SECTION XIII – DISPOSAL CONSIDERATIONS

ENVIRONMENTAL HAZARDS / WASTE DISPOSAL:

DO NOT contaminate water, food, or feed by storage and disposal.

For terrestrial uses. DO NOT apply directly to water, or to areas where surface water is present, or to intertidal areas below the high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water when disposing of equipment washwater. Dispose of in accordance with local, state, and federal regulations.

CONTAINER DISPOSAL:

Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Triple rinse as follows: Empty remaining contents into application equipment or mix tank. Fill container 1/4 full with water. Replace and tighten closures. Tip the container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and or dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.
