GENERAL INFORMATION

AIRFORCE is an oil/silicone surfactant blend that delivers more of the pesticide into the canopy and resists evaporation of the spray droplets.

AIRFORCE combines the benefits of highly refined modified soybean oil with an advanced nonionic organosilicone surfactant emulsifier. This adjuvant blend deposits the pesticide on the plant leaves and into the crop canopy in a form that continues to improve the surface activity of the oil portion of the droplet, even after the water has evaporated.

DIRECTIONS FOR USE

Prior to use read all directions on this label and on the label of the product used. The product label for specific usages and restrictions have precedence over directions for uses referred to on this label.

MIXING INSTRUCTIONS

SHAKE WELL OR RECIRCULATE BEFORE USE.

1. Fill sprayer 1/3 to 1/2 full of water
2. Add dry flowables or dispersible granules
3. Add emulsifiable concentrates
4. Continue to agitate until tank is 3/4 full
5. Add **AIRFORCE** last to the agitating spray tank if excessive foaming develops, the addition of a defoaming agent is recommended with decreased agitation.
