

FERTI-GRO 4-16-4

Foliar Nutrient

GENERAL USE INFORMATION – READ ENTIRE LABEL BEFORE USING THIS PRODUCT

FOR NUTRIENT-DEFICIENCY AND/OR HIGH-NUTRIENT DEMAND

FERTI-GRO 4-16-4 made with Furst® Technology

GENERAL INFORMATION

FERTI-GRO 4-16-4 can be applied to potatoes, sugar beets, most vegetable and row crops, deciduous fruit and nut trees, citrus, avocados, grapes, melons, ornamentals, turf, grains, pasture, range and annual grasses.

FERTI-GRO 4-16-4 liquid plant food contains primary plant nutrients and some micronutrients – which are sequestered – to provide for rapid assimilation into the plant's system.

FERTI-GRO 4-16-4 is recommended to be used to complement a complete, Furst-Class nutritional program.

As a foliar, FERTI-GRO 4-16-4 can be used as a supplement between Furst-Class Concentrate applications or in conjunction with Furst-Class applications.

COMPATIBILITY: FERTI-GRO 4-16-4 may be applied separately or in conjunction with most pesticides and with other fertilizers. The addition of a surfactant or wetting agent is recommended for improved coverage and penetration. A compatibility test is recommended if the desired combination has not been previously used. In this situation, before general applications, apply the spray solution to a small test area of the foliage to determine any undesirable phytotoxic effects.

DIRECTIONS FOR USE – SHAKE WELL BEFORE USING

CONSULT YOUR LOCAL FERTIZONA REPRESENTATIVE OR OTHER AGRICULTURAL SPECIALIST FOR SPECIFIC CROP RECOMMENDATIONS.

MIXING SEQUENCE: 1: Water, 2: FERTI-GRO 4-16-4, 3: Other agricultural chemicals.

APPLICATION RATE: Apply at the rate of 1 to 4 qts. per acre to correct deficiencies of listed nutrients.

FOLIAR APPLICATIONS: Apply FERTI-GRO 4-16-4 with 20 gals. of water per acre through conventional sprayers. When using low volume equipment or aerial application, 5 to 10 gals. of water per acre is usually sufficient. This product can be used in combination with other chelate/citrate-based products and/or many pesticides.

HANDHELD/BACKPACK SPRAYERS: Use up to 5 fl. oz. per gal. of final spray solution.

POTATOES: 1 to 2 qts. per acre at golf ball size tubers, and 2 to 3 qts. per acre 3 weeks prior to vine kill.

TURF AND ORNAMENTALS: 1 to 4 qts. per acre.

SOIL APPLICATIONS WITH OTHER LIQUID FERTILIZER: FERTI-GRO 4-16-4 may be combined with other liquid fertilizer. Use a minimum of 5 gals. of water when mixing with UAN-32 and other liquid fertilizers. Broadcast or row applications are acceptable, although greater efficiency may be expected from row application. Trace elements should be added to pre-plant fertilizer.
