

GUNSMOKE®

WATER CONDITIONING AGENT ACIDIFIER / ACTIVATOR

Principal Functioning Agents:

Monocarbamide dihydrogen sulfate, alkyl amine ethoxylate, 1,2,3-trihydroxypropane	80%
Constituents Ineffective as Spray Adjuvants	20%
TOTAL	100%

CA Reg. No. 34704-50077; WA Reg. No. 34704-10001

KEEP OUT OF REACH OF CHILDREN

DANGER

Hazard and Precautionary Statements: Causes serious eye damage. Causes severe skin burns and eye damage. May cause respiratory irritation. Do not breathe dust/fume/gas/mist/vapors/spray. Wear protective gloves/protective clothing/eye protection/face protection. Wash Hands thoroughly after handling. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Toxic to aquatic life with long lasting effects. **Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Do not allow to enter drains, sewers, or watercourses.

Personal Protective Equipment: Wear protective gloves/protective clothing/eye protection/face protection.

First Aid: If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Wash contaminated clothing before reuse. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL 1-866-944-8565.

GENERAL: GUNSMOKE® is a specialty water conditioner and a pH acidifier designed to be used with glyphosate. GUNSMOKE will help to prevent antagonism from hard water cations including iron, calcium, manganese, magnesium, aluminum and other impurities in the spray solution. GUNSMOKE improves glyphosate absorption into plants and helps improve efficacy on difficult to control weeds. **NOT FOR AQUATIC USE.**

DIRECTIONS FOR USE

GUNSMOKE is specifically designed for glyphosate spray mixes which are registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop uses.

NOTE: For optimum results read and follow all herbicide label directions. Rates of this product may be increased or decreased. Follow herbicide labeling for proper recommendations. Do not use where the herbicide label specifically prohibits the use of an adjuvant. If the herbicide label neither recommends nor prohibits an adjuvant, the applicator must have previous experience with the adjuvant/herbicide spray mixture or should apply a small test area before making large scale applications. The addition of an adjuvant to spray mixtures may cause phytotoxicity to susceptible crops and vegetation. Care should be exercised when using on new varieties or crops not previously treated with GUNSMOKE.

DO NOT USE WITH GLYPHOSATE/2,4-D AMINE OR OTHER AMINE TANK MIXTURES.

GUNSMOKE should be used in glyphosate tank mixes at rates of 1-3 qt/100 gal of water.

After water hardness has been determined, use the following recommendations:

Water hardness (Calcium, magnesium and/or iron)	GUNSMOKE per 100 gallons
<200 ppm	0.25% v/v (1 quart)
200-500 ppm	0.50% v/v (2 quarts)
>500 ppm	0.50% v/v (2 quarts) - 1.0% v/v (1 gallon)

Use GUNSMOKE at 1 qt/100 gal water under normal growing conditions with small actively growing weeds and good water quality. Use GUNSMOKE at 2 qt/100 gal water when environmental conditions, water quality and/or weed sizes will make weed control difficult.

For all applications: Do not substitute GUNSMOKE for water required by the label. Spray equipment should be cleaned thoroughly after use.

STORAGE AND DISPOSAL

STORAGE: Store locked up. Keep this container tightly closed. Store above 20°F. Store in original container. Store in a well-ventilated place. Do not store in aluminum, copper, zinc, or mild steel containers. Do not allow water or other chemicals to be introduced into contents of container. Do not use or store near open flame. Do not reuse empty container. **DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org.
