Helps Prevent Tomato Blossom End Rot

Correction of Calcium Deficiency on
Tomatoes, Peppers, Apples & Other Crops

Foli-Cal RTU is a liquid formulation of calcium for preventing and treating plant physiological disorders associated with calcium deficiency. Some of these are **Bitter Pit** of apples, **Blossom End-rot** of tomatoes, peppers and melons; **Brown Checking** (black heart) of celery; **Internal Brown Spot** of potato tubers; **Cork Spot** of pears; **Internal Browning** of grapes, etc. Foliar sprays of Foli-Cal RTU are intended to complement good soil fertility by supplying nutrients directly to the foliage, roots and fruit of crops during critical growth stages.
