

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

May be fatal if inhaled. Causes moderate eye irritation. Do not breathe dust. Avoid contact with eyes or clothing.

PERSONAL PROTECTIVE EQUIPMENTS (PPE):

Mixers, loaders, applicators, and other handlers must wear:

- Long sleeve shirt and long pants.
- Shoes, plus socks.
- Chemical-resistant gloves, and
- A dust mist filtering respirator (MSH / NIOSH approval number prefix TC-21 C), or a NIOSH approved respirator with any N, R, P or HE filter.

USER SAFETY REQUIREMENTS:

Follow manufacturer's instructions for cleaning / maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS:

- Users should wash hands before eating, drinking, chewing gum, tobacco, or using the toilet.
- User should remove clothing / PPE immediately if pesticides get inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARD

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of waste. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL APPLICATION RESTRICTION:

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

APPLICATION FOR CITRUS:

For aqueous application:

Make a slurry solution by mixing of one 50 lb bag of Decco Salt No. 19 with 200 gallons of water. Mix one gallon of the slurry with 29.5 gallons of water. This will give a 1000 PPM TBZ suspension. Apply this suspension by dip or drench to the fruit for up to 3 minutes. The slurry and the mixture should be kept under constant agitation to prevent TBZ precipitation.

For pack-out wax:

Use three bags of 575 grams each (or equivalent) of Decco Salt No. 19 in 130 gallons of wax to give a concentration of about 3500 PPM TBZ. Apply this mixture by spray at a rate of 1 gallon to 8,000-10,000 lbs of cleaned citrus fruit.

Single application:

For an adequate sporulation control, use two bags of 575 grams each (or equivalent) of Decco Salt No. 19 in 60 gallons of wax to give about 5000 PPM TBZ. Apply one gallon of this mixture by spray to 8,000- 10,000 lbs of citrus fruit.

Do not use this rate if the fruit had been treated with TBZ previously.

APPLICATION FOR APPLES AND PEARS:

For aqueous application:

Decco Salt No. 19 can be used as an aqueous spray, dip or drench on apples and pears. Use one bag of 575 grams each (or equivalent) of Decco Salt No. 19 in 250 gallons of water to give a final concentration of about 600 PPM. Treat fruit with this concentration for up to 3 minutes.

For pack-out wax:

Use at concentration of up to 2000 PPM TBZ in pack-out wax. Apply at a rate of one gallon of TBZ / wax suspension to 10,000 lbs of clean apples or pears. Use the following guide when mixing.

I) Suspend one bag of 312 grams (or equivalent) of Decco Salt No. 19 in 55 gallons of wax to give a final concentration of 1500 PPM TBZ. Apply one gallon of this mixture to 10,000 lbs of clean apples or pears.

II) Suspend one bag of 212 grams (or equivalent) of Decco Salt No. 19 in 55 gallons of wax to give a final concentration of 1000 PPM TBZ. Apply one gallon of this mixture to 10,000 lbs of clean apples or pears.

III) Suspend two bags of 212 grams (or equivalent) of Decco Salt No. 19 in 55 gallons of wax to give a final concentration of 2000 PPM TBZ. Apply one gallon of this mixture to 10,000 lbs of clean apples or pears.

Apples may be treated before and after storage; pears may be treated once.

DECCO SALT No. 19

For control of green mold, blue mold, and stem-end rot of citrus; blue mold, bull's eye rot and gray mold (cluster rot, nest rot) of apples and pears.

Active Ingredient:	
2-(4-thiazolyl)-benzimidazole (thiabendazole/TBZ)	99.5%
Other Ingredients	0.5%
TOTAL	100.0%
