<b>Special protective equipment and precautions for firefighters</b>	Firefighters must wear NIOSH/MSHA approved positive pressure self-contained breathing apparatus with full face mask and full protective clothing.
<b>Fire-fighting equipment/instructions</b>	Do not breathe fumes from fires or vapors from decomposition. Do not allow run-off from firefighting to enter drains or water courses.
<b>Specific methods</b>	Use standard firefighting procedures and consider the hazards of other involved materials.
<b>General fire hazards</b>	Do not enter fire area without proper protective equipment, including respiratory protection.

### Section 6 · ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**

Avoid all contact with skin, eyes, or clothing. Avoid breathing vapor, mist, or spray. Use appropriate personal protection equipment (PPE). Evacuate unnecessary personnel.

**Methods and materials for containment and cleaning up**

*Large Spills* Shut off release if safe to do so. Dike spill area with earth, sand or other inert absorbents to prevent runoff into surface waterways (potential aquatic toxicity), storm drains or sewers. Recover as much of the spilled product as possible using portable pump and hoses. Use recovered material as originally intended or dispose of as a chemical waste. Treat remaining material as a small release (above).

*Small Spills* Confine and absorb small releases with sand, earth or other inert absorbents. Shovel up the absorbed material and place in drums for disposal as a chemical waste or recycle as a fertilizer as the original product was intended.

**Environmental precautions**

Keep out of “waters of the United States” because of potential aquatic toxicity. This product is a non-hazardous liquid.

**Section 7 · HANDLING & STORAGE**

**Precautions for safe handling**

Avoid contact with eyes. Use only in a well-ventilated area. Wash thoroughly after handling. Avoid prolonged or repeated contact with the skin.

**Conditions for safe storage, including any incompatibilities**

Store in cool dry areas. Do not store combustibles in the area of storage vessels. Keep away from any sources of heat or flame. Store totes and smaller containers out of direct sunlight at moderate temperatures. (See Section 10.5 for materials of construction.)

**Section 8 · EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Occupational exposure limits**

No exposure limits noted for ingredient(s).

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Appropriate engineering controls**

Use adequate exhaust ventilation to prevent inhalation of product vapors. Keep eye wash/safety shower in areas where product is commonly handled.

**Personal protective equipment (PPE)**

*Eye/face protection* Wear safety glasses with side shields (or goggles) and a face shield.

*Skin protection* Neoprene rubber gloves and apron should be worn to prevent repeated or prolonged contact with the liquid. Wash contaminated clothing prior to reuse.

*Hand protection* Wear appropriate chemical resistant gloves.

*Respiratory protection* None generally required. If conditions exist where mist may be generated, a NIOSH/MSHA approved mist respirator should be worn.

*Thermal hazards* Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations**

There are no known hazards associated with this product when use as recommended, however common good industrial hygiene practices should

be followed, such as washing thoroughly after handling and before eating or drinking.
