GreenLeaf

See back panel for precautionary information

Net Contents: 16 fl oz. (473ml)

Cleans Dust From Leaves, Polishes and Fertilizes

Water soluble and non-toxic to plants, GreenLeaf is formulated to:

1. Prevent or correct nutrient deficiencies that may limit growth by feeding plants through leaf absorption.
2. Remove accumulated dust and debris from the plant's leaves.
3. Add shine to your plant for a healthier look without the use of oils.

GreenLeaf will cut down your plant maintenance time while increasing your plant's potential.

DIRECTIONS:

Not For Use On Cactus, African Violets, Flowers or plants with furry leaves.

Avoid spraying in direct sunlight. Place absorbent material around the plant to prevent runoff onto surrounding areas. Working from top to bottom, spray and saturate the leaves evenly until runoff occurs. Shake leaves gently to remove any excess solution. Allow plants to air dry. Repeat as necessary for clean and

healthy plants.

The active ingredients in GreenLeaf, derived from renewable resources (not petroleum-based chemicals), are biodegradable and non-staining.

PRECAUTION: As with all chemicals, Keep Out of the Reach of Children. User to determine suitability and use of product.

Guaranteed Analysis:

Total Nitrogen (N)	0.03%
0.01% Ammoniacal Nitrogen	
0.02% Nitrate Nitrogen	
Available Phosphoric Acid (P ₂ O ₅)	0.07%
Soluble Potash (K ₂ O)	0.07%
