CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt, long pants, socks and shoes when mixing or using this product. Remove and wash contaminated clothing before reuse.

Table with 1 column: FIRST AID. Contains instructions for eye contact, skin contact, and ingestion.

FlyAway is a wide-spectrum contact herbal insecticide prepared using USAgritech's proprietary NEO Biological Blending Technology and is to be used as a contact general purpose insecticide and preventative pest agent.

FlyAway controls house flies, stable flies, blow flies, black ants, fungus gnats, barn spiders, American house spiders, wasps, and fruit flies.

DIRECTIONS FOR USE

For use in and around livestock areas, barns, and yards or any other outdoor area where flies are a nuisance. Do not apply directly to food or food contact surfaces.

FlyAway can be applied using hand sprayers, mechanical sprays and misters. Apply FlyAway on all surfaces including ground surfaces and manure that may contain eggs and larvae for maximum control. FlyAway sprayed at regular intervals will help interrupt the insect development cycle thereby reducing insect population. Use a pH range of 5.5 to 6.5 in the final blend for best performance.

MIXING INSTRUCTIONS

FlyAway is a concentrate to be diluted at a rate of 1 ounce of FlyAway concentrate to one gallon of water for hand spray applications. For automatic mister applications use a rate of 1/2 ounce per gallon. Bag contents must be blended by kneading or shaking the bag prior to opening. After blending, fill a container with desired amount of water then open bag by cutting off a top corner and SLOWLY empty contents into water while agitating water to blend. Stir solution lightly to fully blend. When blended, no further agitation is required. Thoroughly wet all surfaces with a fine spray. Apply as needed.

ENVIRONMENTAL HAZARDS

Do not apply directly to water or to areas where surface water is present. Do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL

Store containers in a cool, dry location below 86° F (30°C) away from direct sunlight or sources of intense heat. Dispose of any unused product and packages in accordance with all national and local regulations.

CONDITIONS OF SALE AND WARRANTY

USAgritech, Inc. warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use.
