

BACTI-KLEAR™ Pellets

AQUATIC MICROBIAL BLEND

Enzymes produced in Bacti-Klear™ digest leaf litter, dead algae cells, grass clippings, dead plant matter and other components commonly found in organic pond sediment (“muck”).

Application Instructions

For use in lakes, ponds, water hazards and irrigation tanks. Apply at any time of the day when water temperature exceeds 50°F. Works effectively in a broad pH range between 5.5 and 8.5.

1. Wear proper safety equipment including rubber gloves and eye protection when handling Bacti-Klear™.
2. Determine the surface acres of the treatment area
_____ ft². / 43,560 square feet = surface acres.
3. Determine the amount of Bacti-Klear™ required using the chart below.

Start-up Application Lb. / Surface Acre	Maintenance Application Lb. / Surface Acre
20 lbs.	10 lbs.

4. **Start-up Applications:** Spread 20 lbs. of Bacti-Klear™ Pellets evenly per surface acre using a scoop, handheld fertilizer spreader, or mechanical type spreader, every 30 days. Continue applications until desired level of muck reduction is achieved. Begin applications in spring when water temperature reaches 50°F. Recommended for use in broad water pH range between 5.5 and 8.5.

Maintenance application: Spread 10 lbs. of Bacti-Klear™ Pellets evenly per surface acre every 30 days - 60 days to maintain desired appearance. Begin applications in spring when water temperature reaches 50°F, and continue applications until water temperatures fall below that in the Fall/Winter.

Storage and Handling:

Store in a cool, dry place away from animals and children. Avoid excessive inhalation. Wash hands thoroughly with warm, soapy water after contact. Avoid eye contact.

Warranty Statement

To the extent consistent with applicable law neither the manufacturer nor the seller makes any warranty, expressed or implied concerning the use of this product other than indicated on the label. To the extent consistent with applicable law buyer assumes risk of use of this material when such use is contrary to label instructions. Read and follow the label directions.

Bacti-Klear is designed to decrease levels of organic sediment in lakes and ponds while reducing odors and improving water clarity.

- Pellet sink quickly, targeting the “muck” on the bottom
- Biodegradable pellet
- 3 Billion CFU's (Colony Forming Units) per gram
- Contains sludge-digesting bacteria and enzymes
- Naturally eliminates odors caused by muck near beaches and docks
- Reduces organic sediment without the use of heavy equipment
- Enzymes Produced - Lipase, Protease, Amylase, and Cellulase
- Does not contain pathogenic bacteria
- Safe for fish & wildlife
