

POTATO SEED TREAT

POTATO SEED TREAT is a dry blend of plant-beneficial bacteria and fungi (including Mycorrhizae) accompanied by a nutrient package to support them during their initial stages of growth.

SUGGESTED USES

Commonly mixed with bark.
Can be slurried into a suspension and sprayed on seed pieces.

RECOMMENDED RATE: .5 – 2 oz / 100# seed

STORAGE AND HANDLING

Keep product dry.
Store out of direct sunlight. Store below 90°F.

When using dry products, always use proper safety equipment (dust masks, goggles, gloves, etc.)

Potato Seed Treat meets National Organic Program requirements for organic production.

Potato Seed Treat contains NO Genetically Modified Organisms.

This product is intended for use according to an approved organic system plan.
