

AGRA SOL Zinc 15

Chelated Micronutrients

Agra Sols are concentrated minor element complexes for plant nutrition. 4 pounds of this product is equivalent to 1 gallon of most liquid micronutrient chelates. **Agra Sols** are designed for foliar or ground application. **Agra Sols** are compatible with non-phosphorous liquid fertilizers. **Agra Sols** may be added to dry, granular fertilizer formulations.

RATES OF APPLICATION

CITRUS

Apply 2 - 4 pounds of **Agra Sol Zinc** per acre as needed for zinc nutrition.

MIXING INSTRUCTIONS

Fill mix tank to one half with water. Next add **Agra Sol Zinc** and allow to dissolve totally before adding other materials. Premixing **Agra Sol Zinc** before adding spray to rigs is recommended where agitation is poor. Add desired amounts to partially filled spray tank with agitation. Keep agitated during spray operations.

Optimum rates of application will vary between crops and fields, depending on soil and organic matter content. For best results, follow soil test or plant analysis recommendations.

CAUTION: KEEP OUT OF REACH OF CHILDREN

MAY BE HARMFUL IF SWALLOWED

In case of contact with eyes, flush with water. Contact physician if irritation persists. Dispose of container in accordance with local, state and federal regulations.

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

GUARANTEED ANALYSIS

Zinc as Zn (Chelated) 15.00%

Derived from: Zinc Lignosulfonate.
