Personal Protective Equipment (PPE):

Some materials that are chemical resistant to this product are made of any waterproof material. If you want more options, follow the instructions for category "A" on an EPA chemical resistance category selection chart.

Loaders, applicators and other handlers must wear:

- Long-sleeved shirt and long pants,
- Shoes plus socks, and
- Chemical-resistant gloves.

In addition, applicators using tractor drawn spreaders and all loaders must wear:

- A NIOSH approved particulate filtering respirator equipped with N, R, or P class filter media (the respirator should have a NIOSH approval number prefix TC-84A. It is recommended that you require that respirator wearer be fit tested, and trained in the use, maintenance, and limitations of the respirator).

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands thoroughly after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of the gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. **Drift and runoff from treated areas may be hazardous to wildlife and aquatic organisms in adjacent aquatic sites.** Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate.

ENTRY RESTRICTIONS: Do not enter or allow others to enter the treated area until dusts have settled.

NOTE: DO NOT apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where their roots may extend. **DO NOT** contaminate irrigation ditches or water used for domestic purposes. **DO NOT** allow contact with fertilizers, insecticides, fungicides or seeds. Equipment which has been used to apply this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals as plant injury may result.

RESTRICTIONS

- **DO NOT** apply this product in a way that will contact workers or other persons, either directly or through drift.
- Only protected handlers may be in the area during application.
- **DO NOT** apply with a spoon, pump-feed backpack spreader or gravity-feed backpack spreader.
- **DO NOT** use on turfgrass at residential sites (including homes, apartment complexes, condominium grounds, daycare facilities, schools, playgrounds, parks, recreational areas, and sports fields).

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DO NOT apply this product in a way that will contact workers or other persons either directly or through drift.

Use of this product in certain portions of California, Oregon, and Washington is subject to the January 22, 2004 Order for injunctive relief in Washington Toxics Coalition et al. v. EPA, C01-0132C, (W.D. WA). For further information, please refer to EPA.Gov/Pesticides.

APPLICATION INSTRUCTIONS
NON-CROP WEED CONTROL

This product is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. Use only for non-crop land areas including Railroad, Highway and Pipeline Right-of-Ways, Petroleum Tank Farms, Lumberyards, Storage Areas, and Industrial Plant Sites.

This herbicide should be applied as furnished with a seed spreader, a shaker-type applicator, or with any equipment which will distribute the chemical uniformly over the area to be treated.

For short-term control of annual weeds on non-crop land areas listed above, apply 40.0 to 60.0 pounds per acre. For extended control of annuals and partial control of perennials such as Bermudagrass and Nutsedge, apply 100 to 200 pounds per acre. Reapplication as a spot treatment may be required when deep-rooted perennial weeds such as Bermudagrass, Bouncingbet, Dogbane, Johnsongrass, Nutsedge and Saltgrass are present.

Use higher levels of dosage rates on absorptive soils (high in organic matter or carbon). To obtain better control, this herbicide should be absorbed by the roots. Best results occur when application is made just before weed emergence or in early stages of weed growth.

MAXIMUM RATE PER APPLICATION:

The maximum application rate for areas of high rainfall or dense vegetation is 12.0 pounds active ingredient per year or a total of 300 pounds of product per acre per year. In all other areas, the maximum application rate is 8.0 pounds active ingredient per acre per year or a total of 200 pounds of product per acre per year.

Apply a Maximum of 2 applications per year.

Minimum retreatment interval: 90 days.

RETREATMENT: Apply 40.0 to 60.0 pounds per acre when annual weeds and grasses reappear on sites where weed growth has been controlled.

SMALL AREAS: One-third pound per 100 square feet is approximately 150 pounds per acre. Repeat spot treatment may be required when deep-rooted perennial weeds are present.

Users should consult State Agricultural Experiment Stations or Extension Service Weed Specialists for recommendations as to use in their particular area or write to Loveland Products Inc.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in safe manner. Store in original container only. To maximize shelf life, store in cool, dry place. Keep container tightly closed when not in use. Reduce stacking height where local conditions, such as humidity or pallet overhang, can affect package strength.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Plastic Jug or Pail: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. **Triple rinse as follows:** Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Once cleaned, some agricultural plastic pesticide containers can be taken to a container collection site or picked up for recycling. To find the nearest site, contact your chemical dealer or manufacturer, or contact The Agricultural Container Recycling Council (ACRC) at www.acrecycle.org.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC – 1-800-424-9300.
