GARDEN WEED PREVENTER

Preen Works, So You Don't Have To.™

Precautionary Statements Hazards to Humans and Domestic Animals

CAUTION Causes moderate eye irritation. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with eyes, skin or clothing. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID

IF IN EYES:	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice.
IF SWALLOWED:	<ul style="list-style-type: none">• Call a poison control center or doctor immediately for treatment advice.• Have person sip a glass of water if able to swallow.• Do not induce vomiting unless told to do so by a poison control center or doctor.• Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a poison control center or doctor for treatment advice.
IF INHALED:	<ul style="list-style-type: none">• Move person to fresh air.• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.• Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For Emergency Medical Information call (888) 208-1368.

Environmental Hazards

This pesticide is extremely toxic to freshwater marine, and estuarine fish and aquatic invertebrates including shrimp and oyster. Do not apply in a manner which will directly expose canals, lakes, streams, ponds, marshes or estuaries to aerial drift. Do not contaminate water when disposing of equipment washwaters. Do not apply directly to water.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.
Storage: Keep container closed and away from food, feedstuffs and domestic water supplies.
Disposal: If empty: Do not reuse this container. Place in trash or offer for recycling if available.
 If partly filled: Call your local solid waste agency or 1-800 CLEANUP for disposal instructions.
 Never place unused product down any indoor or outdoor drain.

General Information

Preen Garden Weed Preventer prevents most weeds from germinating in flower and vegetable gardens, in ground covers and around trees and shrubs. Although this product will not kill existing weeds, it will prevent new weeds from sprouting - eliminating the need for difficult and time-consuming hand weeding. Without weeds, your valuable plants can grow larger and stronger. Your beds will stay neat and weed-free all season long!

General Precautions and Restrictions

Not for use on plants being grown for sale or other commercial use, or for commercial seed production or for research purposes. For use on plants intended for aesthetic purposes, or climatic modifications and being grown in ornamental gardens.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Do not apply to Ajuga, Myrtle or Pachysandra until it is well established, as injury may result. Do not apply Preen Garden Weed Preventer to muck soils or to soils containing more than 10% organic matter. Do not over-apply; injury may occur to subsequent crops which are sensitive to this product. Do not use with crops other than those listed on this label. **This product is not for use on lawns**, nor for use in enclosed areas, such as greenhouses. To prevent possible staining to unintended surfaces, ex.: concrete, stone walks, vinyl surfaces, etc., sweep up stray granules as soon as possible.

Entry Restrictions

Do not allow people or pets to enter the treated area until dusts have settled. If product is watered-in, do not enter or allow others to enter the treated areas (except those involved in the watering) until the watering-in is complete and the surface is dry.

Annual Weeds Controlled

Grassy weeds:

Barley, Hare	Cheat	Fescue, Rattail	(from seed)	Texas	Sprangletop
Barnyardgrass	Crabgrass	Foxtail	Junglerice	Sandbur	Stinkgrass
(Watergrass)	Cupgrass:	Guineagrass	Lovegrass	Shattercane	Wildcane
Bluegrass, Annual	Southwestern,	Goosegrass	Oat, Wild	Signalgrass	Witchgrass
Brome	Woolly	Johnsongrass	Panicum: Fall,	(<i>Brachiaria</i>)	Barley, Hare

Broadleaf weeds:

Carpetweed	Henbit	Lambsquarters	Puncturevine	Purslane
Chickweed	Knotweed	Nettle, Stinging	(Western U.S. only)	Pusley, Florida
Carexweed	Goosefoot	Kochia	Pigweed	Thistle, Russian

When to Apply

Apply Preen Garden Weed Preventer anytime during the growing season around established plants and transplants. **Preen Garden Weed Preventer should not be used on flower seeds.** It can be used after flowering plants have germinated and are 2-3 inches tall. This product may also be incorporated into the soil when seeding vegetables or applied after mulching beds. Since it does not kill existing weeds, you must first remove any that have already begun to grow. By applying Preen Garden Weed Preventer as early as possible, you can eliminate the need for hand weeding.

Rain does not wash this product out of the soil. To keep ornamental beds weed-free all season long, reapply Preen Garden Weed Preventer every 9-12 weeks.

How to Apply

To avoid plant injury, do not apply Preen Garden Weed Preventer when foliage is wet. When plants are dry, sprinkle this product on soil surface at rate given below for your specific planting situation. Once activated by watering or soil incorporation, it forms a weed control barrier in the top layer of soil, preventing weed seeds from germinating. Disturbance to the soil surface after activation may result in erratic weed control.

Applying Around Established Plants & Transplants

For flowers, roses, herbs, ground covers, ornamental grasses, shrubs, trees and listed vegetables at least 2"-3" tall (see special section for use on vegetables): sprinkle Preen Garden Weed Preventer evenly over the entire soil surface, at the rate of 1 oz. per 10 sq. ft. (see picture on right), being sure to keep granules away from plant roots and foliage.

Immediately water this product into soil surface. If watering-in is not convenient, lightly rake into soil surface. Always wash or brush off stray granules from plant foliage to avoid damage or discoloration.

Surface Application Rate
 Sprinkle Preen Garden Weed Preventer as shown on soil surface.

Applying with Mulch

For best weed control, we recommend applying Preen Garden Weed Preventer after spreading mulch on your flower and shrub beds. Sprinkle it on top of mulch at surface rate (see picture above), being sure to keep granules away from plant foliage. Immediately water this product into mulch. If watering-in is not convenient, lightly rake into top layer of mulch. Always wash or brush off stray granules from plant foliage to avoid damage or discoloration.

For Use on Vegetables

First remove all existing weeds, then lightly rake to prepare a smooth soil surface. Uniformly mix Preen Garden Weed Preventer into the top 1-2 inches of soil immediately after application, using care not to damage any emerged crops. Rate of application depends on type of soil. Apply at 1 lb. per 640 sq. ft. for heavy clay-type soils, at 1 lb. per 960 sq. ft. for medium loam soils, and at 1 lb. per 1,280 sq. ft. for light sandy soils.

BEFORE Seeding: Broccoli, Brussels Sprouts, Cabbage, Carrots, Cauliflower, Celery, Collard, Black-Eyed Peas, Field Peas, Green Peas, Kale, Lentils, Lima Beans, Mustard Greens, Okra, Radish, Southern Peas (Cow Peas), Snap Beans, Turnip Greens.

AFTER Seeding or Transplanting: Cantaloupes, Cucumbers, Watermelons. Apply after plants have developed 5 or more leaves.

AFTER Planting: Potatoes - May be applied after planting, before or after emergence. Use care not to damage seed pieces in cultivating nor allow treated soil to contact emerged plant foliage.

BEFORE Transplanting: Celery, Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Eggplant, Peppers, Onions, Tomatoes.

Perennial Vegetables: Asparagus - Apply prior to spear emergence of established plants.

This Preen Product Is Recommended for Use Around These Established Plants

Bulbs, Flowers, Herbs, Ground Covers & Ornamental Grasses -

Aaronsbeard	Daisy: African, Painted, Shasta, Trailing African	Impatiens	Poppy, California
Alyssum	Dailly	Iris, Bulbous	Portulaca
Arctotis	Descampsia	Ivy: Algerian, California, English, Needlepoint	Rockrose
Aster (perennial)	Dianthus	Ixora	Rose
Aster, Stoke's	Dusty miller	Jasmine: Angelwing, Asian	Rosemary
Baby's breath	Fern, Asparagus	Lamb's ears	Rudbeckia
Balsam	Fescue, Blue	Lavender, English	Rubrechtort
Beard tongue	Floss flower (Ageratum)	Forget-me-not	Sage, Russian
Bee balm	Four o'clock	Lily turf: Big blue, Green/creeping, Lilac beauty,	Salvia
Begonia	Foxglove	Magestic, Silvery	Silver mound
Bellflower	Gaillardia	sunproof, Variegated	Snappdragon
Black-eyed susan	Gayfeather	liriope, White	Snow-in-summer
Bleeding heart	Gazania	Lily-of-the-nile	Snow-on-the-mountain
Bunge	Geranium	Labella	Speedwell
Calendula	Germander	Lupine (Lupinus)	Spurge, Japanese
Calliopsis	Geum	Marigold	St. John's wort
Cape weed	Gladiolus (corms > 1" in diameter)	Marigold, Cape	Statice
Carex, Variegated	Golden glow	(Dimorphotheca)	Stock
Carnation	Grass: Beach, Dwarf	Morningglory	Stonecrop (Sedum)
Carpet bugle (Ajuga)	Mondo, Eulalia, Fountain, Mascarene, Mondo,	Myoporum	Strawberry, Beach
Ceanothus	Pampas, Ribbon, Zoysia	Narcissus	Sunflower
Centauria, Velvet	Guara	Nasturtium	Sweet alyssum
Chrysanthemum	Hakonechloa, Golden	Nicotiana	Sweet pea
Coneflower, Purple	Hollyhook	Ozark sundrop	Sweet sultan
Coral bells	Hosta, Albo-marginata	Periwinkle (Vinca)	Sweet william
Coreopsis	Hyacinth	Peter Pan, Dwarf	Thrift
Cornflower, Purple	Ice plant: Largeleaf, Trailing, Trailing rosea, White	Petunia	Tickseed
Cosmos		Phlox	Tulip
Cotoneaster		Pincushion flower (Scabiosa)	Verbena
Coyote bush, Dwarf		Plumbago, Dwarf	Wire plant
Crown vetch			Winevine, Creeping
Daffodil			Yarrow (Achillea)
Dahlia			Zinnia

Shrubs -

Abelia: Edward Goucher, Glossy	Broom: Hollandia-warminster, Lena-Scotch	Heather: Cornish, Purple bell, Mediterranean pink, Spring torch scotch	Pittosporum: Green, Japanese, Wheeler's dwarf
Acacia: Abyssinica, Prostrate, Shoestring	Camellia: Japanese, Sasanqua	Hibiscus, Ross Estey	Plumbago
