

NUE Neutral K 25

General Information:

NUE Neutral K 25 is a concentrated phosphate and potassium fertilizer.

NUE Neutral K 25 is designed for foliar applications of phosphate potassium.

Foliar fertilization with primary nutrients will not provide the quantities of nutrients required for normal plant growth. This product may cause foliar burn if applied in higher than recommended rates or concentrations. Use only as a supplement to a regular fertilization program.

Directions for Use:

Compatibility - use caution when mixing with other NPK solutions. When tank mixing with trace minerals, be sure minerals are properly chelated.

Applications -NUE Neutral K 25 is recommended for soil and foliar applications only. Do not use with copper fungicides.

Dilution - Dilute at least to 50:1.

Containers - Triple Rinse. Dispose of containers only in a manner approved by local and state authorities.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>
