

Row Root™ SD

ADDITIVE
TO AN NPK

Guaranteed Analysis

0-0-1

Soluble Potash (K₂O) 1.0%

ALSO CONTAINS NONPLANT FOOD INGREDIENT(S):

1.5% Humic Acids derived from Leonardite

GENERAL INFORMATION:

Row Root SD is intended for use as a side dress, and is typically applied in combination with a bulk NPK fertilizer. It is intended for use as a soil applied material although it may be water run if needed. This product is intended to be a supplement to a fertility program. Always monitor crop nutrient needs and responses with a soil, leaf tissue and irrigation water analysis program.

DIRECTIONS FOR USE:

Soil apply via mechanical application through direct spray or injection to the soil. Mix with sufficient water for adequate mixing and coverage of target areas. May be blended with compatible bulk NPK fertilizers. If applied with other materials, consult your Source to Source representative before applying in contact with the seed.

COMPATIBILITY

This product has a mildly acidic to near neutral pH and is compatible with many commonly applied nutrients and liquid row crop fertilizers. Known compatible mixes include but are not limited to 10-34-0, 3-18-18, 4-10-10, UN 32 and 28-0-0+6S. Contact a Source To Source representative for a list of compatible mixes. Jar test for compatibility prior to mixing with any pesticides, fertilizers or fertilizer blends. For unfamiliar mixes, an appropriate amount of the final mix should be applied to a small area of the intended crop to ensure plant compatibility prior to the planned application. User assumes full responsibility to ensure product, equipment and plant compatibilities.

SUGGESTED CROPS, RATES & TIMINGS

FIELD CROPS & ROW CROPS

Throughout the growing season, blend 1-2 gallons per acre with your compatible bulk NPK fertilizer, along with sufficient water for thorough coverage. Apply 1-4 times per growing season. If applied with other materials, consult your Source to Source representative before applying in contact with the seed.

Expiration Date: _____

This material should be stored in a sealed container and should not be kept in direct sunlight for extended periods of time.
