System-VT™ 0-23*-10

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

Science-Driven NutritionSM

Directions for Commercial Use:

System-VT is designed to supply key nutrients to a variety of row crops as they transition from the vegetative to reproductive phase – such as tasseling in corn – to improve seed fill and maximize yield. System-VT™ is intended for foliar use. Apply 2 to 8 pints per acre with sufficient water for thorough coverage. System-VT™ can be applied via ground sprayer, air application or chemigated through pivots (minimizing the amount of water applied).

WARNING - System-VT™ is compatible with many fertilizers and pesticides but a compatibility check is recommended. Always ensure adequate dilution in the spray tank before adding System-VT™ to any mixture. Never mix System-VT™ in a concentrated form with other fertilizers or pesticides. Do not mix System-VT™ with pesticides that are sensitive to low pH solutions, including copper based products. This product contains boron and should be used only in accordance with directions. Improper use may result in injury to crops. Avoid freezing.

WARNING: KEEP OUT OF REACH OF CHILDREN

Guaranteed Analysis:

Total Phosphoric Acid (P₂O₅)	23.0%
Soluble Potash (K₂O)	10%
Calcium (Ca)	1.0%
Magnesium (Mg)	0.7%
Boron (B)	0.15%

Derived from

Phosphorous Acid, Potassium Hydroxide, Calcium Carbonate, Magnesium Carbonate and Boric Acid

Net Wgt 27 lbs / 2.5 gal
Net Wgt 12.25 kg / 9.46 L

*Phosphorous Acid products are for use as a supplemental fertilizer treatment. Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions, or be used directly by plants, as phosphite ions.

*As a soil application to annual crops, a lesser response from the initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds or root zones may be injurious to crops. This effect may be aggravated by a soil pH below 6.5.

Warranty

- 1.-The manufacturer guarantees and warrants that the content and the total net weight are as stated within lawful limits.
- 2.-Liability of Agro-K Corporation under this warranty or otherwise shall be limited to refund of the purchase price and such refund is expressly agreed by the buyer to be the exclusive remedy.

Agro-K Corporation makes no other expressed or implied guarantee, warranty or representation, including warranties of merchantability and fitness for a purpose. Agro-K Corporation shall not be liable for direct consequential or incidental damages. No modifications of this warranty and the disclaimers herein are authorized or valid unless expressed in writing and signed by Agro-K Corporation.
