## PRODUCT INFORMATION

START-UP 5% Iron Chelate Solution was formulated for use with basic starter fertilizers pH 6 or higher at planting time. START-UP 5% Iron Chelate Solution can be incorporated in basic liquid fertilizers at time of planting, side dressing application, or other situations where it is difficult to get micronutrients to the root zone.

START-UP is composed of organic carriers of Citric Acid which forms a chemical bond when processed.

Iron generally becomes more available when combined and applied with a good nitrogen source. To insure that maximum Iron uptake is obtained we have incorporated a nitrogen source in our START-UP product line.

Information regarding the contents and levels of metals in this product is available by calling 1-800-542-6664

START-UP is a Registered Trademark of Western Nutrients Corporation.

## APPLICATION RATES

**Trees including Citrus, Other Fruit and Ornamentals** (trunk diameter over 6 inches) Soil Application – Apply 1 to 4 qts. per tree depending on age, size of tree and extent of chlorosis. Foliar Application– Thoroughly wet the leaves using 1 qt. per 100 gallons of solution. Do not apply during bloom.

**Field Crops including Corn, Sorghum, Beans and Cotton:** Soil Application – Apply 3 to 10 qts. per acre in starter fertilizer, bulk blend or liquid. Rate will depend on soil conditions and extent of deficiency. Foliar Application – Apply 1 qt. per 100 gallons of solution 4 to 6 weeks after planting. Do not apply during bloom.

**Vegetable Crops Including Beets, Lettuce, Celery, Onions, Peas, Potatoes, Radish, Spinach, and Tomatoes:** Soil Application - Apply 1 to 10 qts. per acre in starter fertilizer, bulk blend or liquid. Rate will depend on soil condition and extent of deficiency. Foliar Application – Apply 1 qt. per 100 gallons of solution 4 to 6 weeks after planting. Do not apply after bloom.

**Lawns and Turf:** Apply 1 qt. per 10,000 sq. ft. Mix thoroughly with water and apply evenly. Application should be followed with a thorough watering.

**Garden Flowers:** Soil Application – Use 4 ozs. per 100 feet of row. For Individual plants ( in garden) use 2/3 oz. Foliar Application – Thoroughly wet leaves using 1 qt. per 100 gallons solution. Do not apply during bloom.
