PRECAUTIONARY STATEMENTS

### CAUTION

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITIONS OF SALE AND LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin, eyes, or clothing. Do not apply this product in such a manner as to directly or through drift expose workers or other persons.

WHAT TO DO IN CASE OF CONTACT:

**If Swallowed:** Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

**If on Skin:** Wash with plenty of soap and water. Get medical attention if irritation persists.

**If Inhaled:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

**If in eyes:** Flush eyes with plenty of water. Call a physician if irritation persists.

### STORAGE AND DISPOSAL

Store in original container only. Keep container tightly closed. Do not allow water to be introduced into the contents of this container. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment washwaters or spray waste. Do not store near heat or open flame. Do not store with oxidizing agents or ammonium nitrate.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) and add rinsate to spray tank, then offer for recycling or reconditioning, or puncture and dispose of according to state and local authorities. If burned, stay out of smoke.

For help in chemical emergencies involving spill, leak, fire or exposure, call toll free 1-800-424-9300.

### GENERAL INFORMATION

PRO-MATE® ONE-PUTT™ reduces problems associated with localized dry spot (LDS) from hydrophobic soils in turfgrass. PRO-MATE® ONE-PUTT™, a 100% active nonionic wetting agent, is made to remain effective in the soil for up to 6 months. PRO-MATE® ONE-PUTT™ improves the rate and depth of water infiltration and helps to minimize irrigation requirements. PRO-MATE® ONE-PUTT™ can be applied as a season-long, residual wetting agent to reduce turf stress. It can be applied to all turfgrass areas, including golf course tees, fairways, athletic fields, lawns, sod farms, and any other general use turfgrass areas. PRO-MATE® ONE-PUTT™ can also be used on newly seeded or hydroseeded turfgrass or where planting ornamental trees, shrubs or flowers to reduce irrigation needs.

### APPLICATION GUIDELINES

Apply PRO-MATE® ONE-PUTT™ using traditional spray application equipment, applying with at least 100 gallons of water per acre as the "carrier". Water in immediately following application. For best results, apply PRO-MATE® ONE-PUTT™ early in the growing season.

Applications can also be made "as needed" throughout the season to relieve plant stress caused by hydrophobic soils. Since PRO-MATE® ONE-PUTT™ does not dissipate rapidly in the soil, only 1 or 2 applications are typically required during each growing or use season.

### SUGGESTED RATES

PRO-MATE® ONE-PUTT™ suggested use rates are 8 - 16 fl. oz. per 1,000 sq. ft. When used at the rate of 16 fl. oz./1,000 sq. ft., diluted at

**Disclaimer:** Always refer to the label on the product before using Helena or any other product.

a 1:400 ratio (16 oz./50 gal.) followed by a syringe application of irrigation, this product may be effective for up to 6 months. Water in PRO-MATE® ONE-PUTT™ immediately following application to fully activate the product and to reduce burn potential to turfgrass. When applied during the coolest part of the day, burn potential is lower than most wetting agents. An irrigation injection system or properly calibrated hose and dilutor may also be used to apply PRO-MATE® ONE-PUTT™. For split applications, apply PRO-MATE® ONE-PUTT™ with a boom sprayer at 8 oz. per 1,000 sq. ft. in a minimum of 100 gallons of water per acre. Water immediately to wash the active ingredients from the leaf surface and into the soil and root zone. A follow-up application in 7 - 10 days is suggested when used at a rate of 8 oz. per 1,000 sq. ft.

Tank mix compatibility with other products will vary, even though PRO-MATE® ONE-PUTT™ is nonionic. Variables such as water source properties, type of sprayer and agitation, as well as local environment conditions are factors which can affect compatibility of PRO-MATE® ONE-PUTT™ with other compounds. Incompatibility can be determined using a simple jar test. Partially fill a container 2/3 full of water to be used in the sprayer solution. Using the correct dilution, add all the tank mix components and fill the jar with water. After shaking the container vigorously, compatibility can be measured by observing any conglomeration or separation activity.

### CONDITIONS OF SALE - LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale-Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.

The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the "Company") or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company's election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
