Z- GAIN

Stoller X- TENDER™

RECOMMENDATION FOR USE

Liquid Foliar Nutrient and Additive
To Post Harvest Wash and/ or Cooling Water

Guaranteed Analysis

Calcium (Ca) 12%
Derived from calcium chloride and citric acid

GENERAL INFORMATION

Fruits and vegetables will have fewer post harvest problems when treated with **X- Tender™** as recommended.

Shipment quality, storage quality, and shelf life is governed by cell tissue breakdown.

Post harvest quality can be controlled by pre- harvest applications and by treatments immediately after harvest by strengthening the cell walls immediately under the skin.

The cell wall strength is destroyed by ethylene mediated enzymes which are most destructive during hotter temperatures.

X- Tender is designed to reduce this enzymatic action.

CAUTION: **Keep Out Of Reach Of Children**

May cause skin irritation. Avoid contact with eyes, skin and clothing. If exposure occurs, wash exposed area thoroughly with clean water.

X- Tender is designed to be used on all fruit and vegetables except those sensitive to skin damage. If skin sensitivity is unknown, try on a small area, before commercial use.

PREHARVEST APPLICATION

Fruits - Foliar spray 3 quarts per acre (7 liters per hectare) in sufficient spray volume so all fruit are covered. Begin about three weeks prior to normal harvest and continue through harvest period.

Vegetables - Foliar spray 1 gallon per acre (9 liters per hectare) every 7 days. Begin 3 weeks before normal harvest and continue through harvest period.

POST HARVEST TREATMENT

Hydrocooler water: Add X- Tender to hydrocooler and brush water to a concentration of 0.5% (1/2 gallon per 100 gallons (5 milliliters per liter) of water.

The fruit or vegetables should be in contact with the **X- Tender** solution for 15 minutes or more for best results.

Conditions Of Sale: 1. Seller warrants this product consists of the ingredients specified and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. No one other than an officer of Seller is authorized to make any warranty, guarantee or direction concerning this product. 2. Because the time, place, rate of application and other conditions of use are beyond Seller's control, Seller's liability from handling, storage and use of this product is limited to replacement of product or refund of purchase price.

NOTE: The information contained herein is true and accurate to the best of our knowledge and belief, but is presented without guarantee since field conditions and use are beyond our control. Neither the Manufacturer nor the Seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Read and follow the label directions carefully.
