

SPECIMEN LABEL

GUIDE-LINE

FOAM MARKER CONCENTRATE

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

Refer To Inside Of Label Booklet For Additional Precautionary Statements And Directions For Use

PRINCIPAL FUNCTIONING AGENTS:

Proprietary Blend of
Foam Concentrate and
Stabilizing Agents 100%

Net Contents:

EPA Est. No. 1386-OH-1

Distributed by:
Universal Crop Protection Alliance, LLC

Egan, MN 55121

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

May cause skin or eye irritation. May be harmful if swallowed. Do not get in eyes, on skin or on clothing.

STATEMENT OF PRACTICAL TREATMENT

If In Eyes: Immediately flush eyes with large quantities of water for at least 15 minutes. Call a physician. **If On Skin:** Wash thoroughly with soap and water. **If Swallowed:** May be harmful if appreciable quantities are swallowed. Call a doctor or Poison Control Center immediately. Have victim drink one or two glasses of water. Do not induce vomiting. For Medical Emergency information call 1-800-228-5635, extension 138.

ENVIRONMENTAL HAZARDS

Do not contaminate water or soil with cleaning solution.

GENERAL INFORMATION

Guide-Line is a versatile blend of high foaming surfactants and foam stabilizing agents in an **easy-to-use**, economical formulation. The foaming properties of **Guide-Line** are virtually unaffected by water hardness or water temperature. **Guide-Line** provides reliable results regardless of the conditions and eliminates the need for additional additives or water conditioners. Water temperatures between 25° - 80° F. will not affect foam generation.

DIRECTIONS FOR USE

Use one gallon of **Guide-Line** per 100 gallons of water (100:1 dilution) if your water source is between 300 and 1,000 ppm hardness.

In softer water (less than 300 ppm), or if less foam is acceptable, use one gallon of **Guide-Line** in up to 160 gallons of water (160:1 dilution).

Under extreme conditions, temperatures **above** 80° F. or in water hardness above 1,000 ppm, use one gallon of **Guide-Line** per 80 gallons of water (80:1 dilution), or less if required.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Store at temperatures between 40° F. and 120° F. Frozen material may be thawed in a warm area and used.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill. If incineration is allowed by state and local authorities, stay out of smoke.

WARRANTY AND LIMITATION OF DAMAGES

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and **Buyer** assumes the risk of any use contrary to such directions. **Seller** makes no other express or implied warranty, including any other express or implied warranty of **Fitness** or of **Merchantability**, and no agent of **Seller** is authorized to do so except in writing with a specific reference to this warranty. In no event shall **Seller's** liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
