

# Brandt Smart Mn

## Foliar Nutrient Supplement

### General Information

BRANDT SMART MN is specifically formulated for foliar delivery of Manganese for all crops. BRANDT SMART MN contains a new proprietary Brandt Smart System™ that provides improved physical and biological compatibility of micronutrients with pesticides, including glyphosate formulations even in the absence of ammonium sulfate (AMS).

### Foliar Application

Apply 1-2 quarts BRANDT SMART MN per 10-20 gallons of water per acre per application as a maintenance program.

### Aerial Application

Apply 1-2 pints BRANDT SMART MN per acre with 5 gallons of water. Multiple applications are recommended for best results.

### Soil Application

Use 1 - 3 quarts BRANDT SMART MN per 10-20 gallons of water per acre per application as a maintenance program. BRANDT SMART MN is not for use with starter fertilizer, for these applications we recommend using BRANDT EDTA products; 100% guaranteed EDTA chelated micronutrient solutions for soil applications.

*Use a minimum 10 gallons water per acre with ground spray equipment and a minimum of 2 gallons for aerial application. The use of an adjuvant may be desired to improve the properties of spray solution. Performing trials with adjuvants may be useful in determining the best inclusion rates for optimal performance. Optimum rate of application will vary between fields, depending on soil pH and organic matter content. For best results, follow soil test or plant analysis recommendation.*

Information concerning the raw materials composing the product in this container can be obtained by writing to Brandt Consolidated, Inc. and referring to the product name, or visit our web site: [www.brandtconsolidated.com](http://www.brandtconsolidated.com)

Manganese (Mn) .....	.6.0%
6.0% Water Soluble Manganese	

Derived from Urea and Manganese Sulfate. F76

### Mixing Instructions

Put 1/3 to 2/3 of total desired water volume in tank. Add adjuvant(s) if desired and agitate until thoroughly mixed. Add pesticide(s) if desired and agitate until thoroughly mixed. Add desired amount of BRANDT SMART MN and agitate until thoroughly mixed. Fill tank with remainder of desired water. A jar test is a good field practice for evaluating compatibility of multiple chemical mixtures. Caution: Check compatibility with chemical mixtures and high phosphate and alkaline (high pH) solutions.

**Weight per gallon: 10.35 lbs**  
**Freezing temperature: 32°F**  
**CAUTION: KEEP OUT OF REACH OF CHILDREN**

**CAUTION:** Harmful if swallowed. Avoid contact with skin, eyes and clothing. Causes eye irritation. Avoid breathing spray mist. Wash hands after using thoroughly after use. In case of eye contact, flush eyes with water for at least 10 minutes and get medical attention.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry, locked area out of reach of children. Protect from excessive heat or cold. Triple rinse (or equivalent) and dispose of container in accordance with local, state and federal regulations.

**Warranty:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
