

Sulfur

FEATURES & USE TIPS:

- An excellent source of elemental sulfur for correcting soil deficiencies and lowering soil pH.
- Material is composed of very fine particles so that it is ideal for use on putting greens and other closely cut turf areas.
- Granular product which disperses to a -40 mesh (0.4 mm) particle size to assure rapid oxidation to sulfate form.
- Homogeneous and essentially dust-free for ease of application.
- Excellent turf safety, will not burn when used as directed.

PRODUCT SPECIFICATIONS:

S - (90%): Free sulfur

Following is a specimen label that may at some point be revised or otherwise become out of date. It is intended as a guide in providing general information regarding the use of this product. Always read and follow the label on the product container.

PRODUCT CODE:

AGC8870

Date: 061107
Supersedes: 000000

PRODUCT CHARACTERISTICS:

Product Type:

Fertilizer

Particle Size:

SGN: 125

Net Weight:

50 lbs.

Coverage:

22,700 sq. ft.
@ Medium Rate

PRODUCT SHEET

SULFUR

CAUTION: KEEP OUT OF REACH OF CHILDREN.

Sulfur is a combustible material. Avoid creating dust in handling. Do not mix with strong oxidizers such as ammonium nitrate.

Guaranteed Analysis

Sulfur (S) 90.00%
90.00% Free Sulfur (S)

Derived from elemental sulfur. **F292**
Product of U.S.A.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.regulatory-info-ap.com>.

Directions for use

Apply to moist or dry turf. Watering after application will aid in the dispersion of the sulfur granules. To minimize particle pick-up, do not collect clippings for the first mowing after treatment. Early fall applications are preferred.

To reduce soil pH when greater than 7.0:

Greens and tees:

Apply 2.2 lbs./1,000 sq. ft. spring or early fall until the desired soil pH is attained (5.6-6.5). Two applications per year may be used in regions with longer growing seasons or on greens with a high buffering capacity (CEC > 15). Do not exceed 4.5 lbs./1,000 sq. ft. Do not apply on high sand content soils (70% or greater sand) if temperatures are 80°F or above.

Fairways and other large turf areas:

On warm season grasses, apply 2.2 - 4.5 lbs./1,000 sq. ft. in the spring and early fall until the desired soil pH is attained (5.6-6.5). On cool season grasses, apply 2.2 - 4.5 lbs./1,000 sq. ft. in the spring or early fall. Two applications per year may be used in regions with longer growing seasons. On medium to heavy textured soils (loam to clay loam), use the higher rate and frequency (4.5 lbs./1,000 sq. ft., twice a year) if a more rapid pH adjustment is desired. In the Pacific Northwest on sandy soils do not exceed 2.2 lbs./1,000 sq. ft./application. Soil pH should be monitored on greens, tees and fairways when Sulfur is being used to reduce pH. Suggest areas be sampled twice a year, July and November. Soil samples should be taken from the top one inch of soil. Generally, 33 lbs. of sulfur per acre on sandy soils and 109 lbs. sulfur per acre on medium textured soils (loam) will drop the soil pH by 0.1 pH unit.

To Correct Sulfur Deficiencies:

Apply 20 to 40 lbs./acre (0.5 - 0.9 lbs./1,000 sq. ft.) spring or fall. Water after application to aid in the product dispersion

Precautions

Do not apply sulfur during the mid-summer stress period. On sandy soils in the Pacific Northwest, do not exceed 100 lbs./acre/application. Avoid unnecessary overlap of product during application to avoid excessive rates.

IMPORTANT: READ BEFORE USE:

Read the entire Directions for Use and the Warranty Disclaimer and Limitation of Liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or Buyer accepts the following Warranty Disclaimer and Limitation of Liability:

WARRANTY DISCLAIMER and LIMITATION of LIABILITY:

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions. Manufacturer makes NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Where permissible, it is Manufacturer's intent to LIMIT ANY LIABILITY FOR SPECIAL, CONSEQUENTIAL OR INCIDENTAL ECONOMIC DAMAGES to refund of purchase price or replacement of product, at Buyer's choice. Manufacturer DISCLAIMS ANY LIABILITY FOR COMPENSATORY OR OTHER DAMAGES ARISING OUT OF ANY USE CONTRARY TO LABEL DIRECTIONS. Use contrary to label directions is not permitted.
