

# AgraSyst Inc MATERIAL SAFETY DATA SHEET Date of Issue: 3/22/05

## Section 1. Chemical Product and Company Identification

**MSDS Number:** AS003

**Trade Name:** Full Load

**Chemical Family:** Surfactant

**Chemical Name(s):** Proprietary blend of ethoxylated poly amine and polyoxyethylene and diethylene glycol and Hydrogen Sulfate

**Manufacturer:** AgraSyst LLC, 16417 North Napa Ln. Spokane, WA 99228 Tel. (509) 467 2167

## Section 2. Composition, Information and Ingredients

Component	% by weight
Proprietary Surfactant Blend	60
Hard Water Scavenger	4
Inert	36

## Section 3. Hazards Identification

**Appearance and Odor:** Liquid, mild odor

**Causes eye burns**

**Causes Skin Irritation**

**Harmful if swallowed**

**Slightly toxic if inhaled**

## Section 4. First Aid Measures

**First Aid – Eyes:** Immediately flush with plenty of water for at least 15 minutes. Get medical Attention.

**First Aid - Skin** Immediately flush with plenty of water while removing contaminated clothing. As soon as soap is available, wash thoroughly with soap and water. Wash clothing before reuse.

**First Aid - Ingestion** Wash out mouth thoroughly with water. Get medical attention. Contact a Poison Control Center. Do not induce vomiting.

**First Aid – Inhaled:** None Normally needed.

## Section 5. Fire Fighting Measures

**Flash Point:** Greater than 200 degrees F.

**Extinguishing Media** – Flood with water, Dry chemical, CO2 or alcohol foam.

**Unusual fire and explosion hazards:** None.

## Section 6. Accidental Release Measures

Observe all protection and safety precautions when cleaning up spills

Liquid spills on floor or other impervious surfaces should be contained or diked and should be absorbed with attapulgate, bentonite or other absorbent clays. Collect contaminated absorbent, place in a plastic-lined metal drum and dispose of in accordance with instruction provided under **Disposal**. Thoroughly scrub floor with strong industrial type detergent solution and rinse with water.

Liquid spills that soak in the ground should be dug-up, place in plastic-lined metal and disposed of in accordance with instruction provided under **Disposal**.

Leaking containers should be separated and its contents transferred to a plastic-lined drum or other non-leaking container. Disposal of leaking should be done in accordance with instruction provided under **Disposal**.

Do not contaminate water, or food by storage or disposal.

## Section 7. Handling and Storage

Do not get in eye, on skin, or on clothing.

Wear goggles or face shield and rubber gloves in transferring and mixing.

Wash thoroughly with soap and water after handlings

**Storage:** Store in original container. In case of leak or spill, use absorbent material to contain liquids and disposed of wastes. Store this product above 32 degrees F to keep for thickening. If frozen, warm in an area that is less than 100 degrees F prior to use.

## Section 8. Exposure Controls, Personal Protection

**Eye Protection:** Where there is potential for eye contact, wear chemical goggles and have flushing equipment immediately available.

**Skin Protection:** Wear appropriate protective clothing and chemical resistant gloves to prevent skin contact. Wear face shield and chemical resistant clothing when splashing is likely. Wash contaminated skin promptly. Launder

contaminated clothing and clean protective equipment before reuse. Wash thoroughly after handling

**Respiratory Protection:** This product is not likely to present an airborne exposure concern under normal use. Use NIOSH/MSHA approved respiratory protection equipment if needed for exposure during unusual handling. Respiratory protection programs must comply with 29 CFR 1910.134.

**Ventilation:** No special precautions recommended.

**Airborne Exposure Limits:** Not Established

### **Section 9. Physical and Chemical Properties**

**Appearance:** Liquid, clear, pale brown

**Odor:** Mild

**Specific Gravity:** 1.05 g/ml

**Density:** 8.8 lb/gal

**% Solubility in water:** 100

**Viscosity:** Unknown

### **Section 10. Stability and Reactivity**

**Stability:** Product is stable under normal conditions of use, storage and handling.

**Materials to Avoid:** Strong oxidizing agents.

**Hazardous Decomposition Products:** CO<sub>2</sub>, CO, Nitrogen

**Hazardous Polymerization:** None

### **Section 11. Toxicological Information**

Poly Amine is considered to be mildly toxic by ingestion and dermal contact. Poly amine will cause severe eye irritation to rabbit eyes.

### **Section 12. Disposal Consideration**

This material when discard is not a hazardous waste as that term is defined by the Resource, Conservation and Recovery act. (RCRA, 40 CFR 261. Dispose of by landfill, incineration or recycle in accordance with local, state and federal regulations.

### **Section 13. Transport Information**

DOT Shipping Description: Not Regulated by DOT

Freight Classification: adhesives, Adjuvants, Spreaders or Stickers (NMFC 4610; CLASS: LTL 60; TL 35)

Revised 3/22/05.
