

## 1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** Agri-Tin Flowable  
**EPA Reg. No.:** 55146-84  
**Product Type:** Agricultural Fungicide  
**Company Name:** Nufarm Americas Inc. AGT Division  
 11901 S. Austin Avenue  
 Alsip, IL 60803  
 1-800-345-3330

**Telephone Numbers:** For Chemical Emergency, Spill, Leak, Fire, Exposure, or Accident,  
 Call CHEMTREC Day or Night: 1-800-424-9300  
 For Medical Emergencies Only, Call 1-877-325-1840

This product is an EPA FIFRA registered pesticide. Some classifications on this SDS are not the same as on the FIFRA label. Certain sections are superseded by federal law governed by EPA for a registered pesticide. Please see Section 15. REGULATORY INFORMATION for explanation.

## 2. HAZARDS IDENTIFICATION

### PHYSICAL HAZARDS:

Not hazardous

### HEALTH HAZARDS:

|  |            |
|--|------------|
| Acute Toxicity Oral                              | Category 3 |
| Acute Toxicity Dermal                            | Category 3 |
| Acute Toxicity Inhalation                        | Category 1 |
| Eye Damage                                       | Category 1 |
| Skin Irritation                                  | Category 2 |
| Specific Target Organ Toxicity – Single Exposure | Category 3 |
| Specific Target Organ Toxicity – Repeat Exposure | Category 1 |
| Carcinogen                                       | Category 2 |
| Reproductive Toxicity                            | Category 2 |

### ENVIRONMENTAL HAZARDS:

|   |            |
|---|------------|
| Hazardous to aquatic environment, acute   | Category 1 |
| Hazardous to aquatic environment, chronic | Category 1 |

### SIGNAL WORD:

DANGER

### HAZARD STATEMENTS:

Fatal if inhaled. Toxic if swallowed or in contact with skin. Causes serious eye damage. Causes skin and respiratory tract irritation. Causes damage to immune system, pituitary, testes, and liver through prolonged exposure. Suspected of causing cancer. Suspected of damaging the unborn child. Very toxic to aquatic life with long lasting effects.

### PRECAUTIONARY STATEMENTS

Obtain special instructions. Do not handle until all safety precautions have been read and understood. Do not breathe mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wash thoroughly after handling. Do

## SAFETY DATA SHEET

## Agri-Tin Flowable

not eat, drink or smoke when using this product. Wear respiratory protection, protective gloves, protective clothing, and eye protection. Avoid release to the environment.

IF exposed or concerned: Get medical advice.

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTER or doctor.

IF SWALLOWED: Immediately call a POISON CENTER or doctor. Rinse mouth.

IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice. Call a POISON CENTER or doctor if you feel unwell. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor. Collect spillage.

Store in a well-ventilated place. Keep container tightly closed.

Store locked up.

Dispose of contents in accordance with local, state, and federal regulations.

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

| COMPONENTS             | CAS NO.      | % BY WEIGHT  |
|------------------------|--------------|--------------|
| Triphenyltin Hydroxide | 76-87-9      | 38.8 – 41.2  |
| Propylene glycol       | 57-55-6      | 3.8 – 4.2    |
| Other Ingredients      | Trade Secret | Trade Secret |

**Synonyms:** Mixture containing TPTH, Triphenyltin Hydroxide; Fentin Hydroxide

Ingredients not precisely identified are proprietary or non-hazardous. Values are not product specifications.

### 4. FIRST AID MEASURES

**If Swallowed:** Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Get medical attention.

**If Inhaled:** Immediately remove person to fresh air. If breathing is difficult, administer oxygen. Get immediate medical attention.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin with plenty of water. Get medical attention.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Get immediate medical attention.

**Most important symptoms/effects, acute and delayed:** Causes severe eye irritation and damage. Fatal if inhaled. Toxic if swallowed or in contact with skin. Causes skin and respiratory tract irritation. Suspected of causing cancer. Suspected of damaging the unborn child. Causes damage to immune system, pituitary, testes, and liver through prolonged exposure.

**Indication of immediate medical attention and special treatment needed, if necessary:** Immediate medical attention is required for all routes of exposure.

### 5. FIRE FIGHTING MEASURES

**Extinguishing Media:** Use dry chemical, carbon dioxide, water fog or foam.

**Special Fire Fighting Procedures:** Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full fire-fighting turn out gear. Dike area to prevent runoff and contamination of water sources. Dispose of fire control water later.

**Unusual Fire and Explosion Hazards:** If water is used to fight fire, contain runoff, using dikes to prevent contamination of water supplies. Dispose of fire control water later.

**Hazardous Decomposition Materials (Under Fire Conditions):** May produce diphenyltin hydroxide, monophenyltin hydroxides and metallic tin. (Technical: organic acid vapors.)

## 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** Wear appropriate protective gear for the situation. See Personal Protection information in Section 8.

**Environmental Precautions:** Prevent material from entering public sewer systems or any waterways. Do not flush to drain. Large spills to soil or similar surfaces may necessitate removal of topsoil. The affected area should be removed and placed in an appropriate container for disposal.

**Methods for Containment:** Dike spill using absorbent or impervious materials such as earth, sand or clay. Collect and contain contaminated absorbent and dike material for disposal.

**Methods for Cleanup and Disposal:** Pump any free liquid into an appropriate closed container. Collect washings for disposal. Decontaminate tools and equipment following cleanup. See Section 13: DISPOSAL CONSIDERATIONS for more information.

Large spills may be reportable to the National Response Center (800-424-8802) and to state and/or local agencies.

## 7. HANDLING AND STORAGE

### **HANDLING:**

Do not get in eyes, or on skin or on clothing. Do not breathe vapor or spray mist. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove Personal Protective Equipment (PPE) immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

### **STORAGE:**

Store above 32°F (0°C) and below 95°F (35°C). Store in original container in a dry secured storage area. Keep container tightly closed when not in use. Do not contaminate water, food or feed by storage or disposal.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### **Engineering Controls:**

Where engineering controls are indicated by specific use conditions or a potential for excessive exposure, use local exhaust ventilation at the point of generation.

### **Personal Protective Equipment:**

Some materials that are chemical-resistant to this product are butyl rubber, nitrile rubber or neoprene rubber. If you want more options, follow the instructions for Category A on the EPA chemical-resistance category selection chart.

**Handlers exposed to the concentrate or diluted product:** Must wear coveralls over long-sleeved shirt and long pants, chemical-resistant footwear plus socks, chemical-resistant gloves made of any waterproof material, such as butyl rubber, nitrile rubber, or neoprene rubber, protective eyewear, chemical-resistant apron for mixing and loading or equipment maintenance, chemical-resistant headgear for overhead exposure, dust/mist filtering respirator (NIOSH approval TC-21C) or a NIOSH approved respirator with any N,R, P or HE filter.

**Handlers, mixers, loaders, applicators and flaggers using engineering controls:** Must wear long-sleeved shirt and long pants, shoes plus socks, chemical-resistant gloves made of any waterproof material, such as butyl rubber, nitrile rubber, or neoprene rubber, during mixing and loading.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow the manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**General Hygiene Considerations:** Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material: 1) do not store, use and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored; 2) wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics or using the toilet.

### **Exposure Guidelines:**

| Component   | OSHA |      | ACGIH         |               | Unit              |
|---|------|------|---------------|---------------|-------------------|
|   | TWA  | STEL | TWA           | STEL          |                   |
| Triphenyltin Hydroxide (As Organic Tin Compounds) | 0.1  | NE   | 0.1<br>(Skin) | 0.2<br>(Skin) | mg/m <sup>3</sup> |

| <b>Partition coefficient: n-octanol/water:</b>       | No data available  |
| <b>Autoignition temperature:</b>                     | No data available  |
| <b>Decomposition temperature:</b>                    | No data available  |
| <b>Viscosity:</b>                                    | 580 cPs @ 21° C; 468 cPs @ 40° C<br>(Brookfield, 50 RPM) |

**Note:** Physical data are typical values, but may vary from sample to sample. A typical value should not be construed as a guaranteed analysis or as a specification.

## 10. STABILITY AND REACTIVITY

**Reactivity:** Not reactive.

**Chemical Stability:** This material is stable under normal handling and storage conditions.

**Possibility of Hazardous Reaction:** Will not occur.

**Conditions to Avoid:** Direct sunlight causes degradation to an inorganic tin salt.

**Incompatible Materials:** Acids and oxidizers.

**Hazardous Decomposition Products:** Under fire conditions, may produce diphenyltin hydroxide, monophenyltin hydroxides and metallic tin.

## 11. TOXICOLOGICAL INFORMATION

**Likely Routes of Exposure:** Inhalation, Skin contact, Eye contact

**Symptoms of Exposure:**

**Eye Contact:** Contact with eyes may cause eye corrosion or ulceration; blindness may result.

**Skin Contact:** Contact with skin may cause severe irritation with burning, redness, swelling, pain or rash. Toxic if absorbed through the skin. May cause symptoms similar to those for ingestion.

**Ingestion:** Toxic if swallowed. Ingestion may cause irritation of the digestive tract with stomach pain, heartburn, nausea, vomiting or diarrhea; there may be no symptoms at all.

**Inhalation:** Fatal if inhaled. Inhalation may cause irritation of nose, throat and lungs, cough, difficulty breathing or shortness of breath.

**Delayed, immediate and chronic effects of exposure:** May produce severe irritation or contact dermatitis which may be delayed several hours.

**Toxicological Data:**

Data from laboratory studies conducted on this product:

**Oral:** Rat LD<sub>50</sub>: >100 mg/kg to < 500 mg/kg

**Dermal:** Rat LD<sub>50</sub>: >2,000 mg/kg

**Inhalation:** Rat 4-hr LC<sub>50</sub>: >0.108 mg/L to < 0.51 mg/L

**Eye Irritation:** Rabbit: Severely irritating (MMTS=43.0)

**Skin Irritation:** Rabbit: Moderately irritating (PDII=3.1)

# SAFETY DATA SHEET

# Agri-Tin Flowable

**Skin Sensitization:** Not a contact sensitizer in guinea pigs following repeated skin exposure.

**Subchronic (Target Organ) Effects:** Repeated overexposures to TPTH may produce impaired immune system function with increased susceptibility to disease, altered white blood cell and lymphocyte counts, and effects on the pituitary, testes, and liver.

**Carcinogenicity / Chronic Health Effects:** The U.S. EPA has classified TPTH as a Class B2 carcinogen (probable human carcinogen) based on pituitary and testicular tumors in rats and liver tumors in mice.

**Reproductive Toxicity:** In a multi-generational reproduction study in rats, TPTH produced decreased litter size, liver and spleen weights at exposure levels lower than where parental toxicity was observed.

**Developmental Toxicity:** TPTH studies in laboratory animals show developmental effects only at exposure levels producing other toxic effects in the parental animal.

**Genotoxicity:** TPTH is not considered to have a mutagenicity/genetic toxicity concern. Most studies are negative for mutagenic/genetic toxicity effects. Although there are some apparent positive responses, other tests, particularly *in vivo*, conducted to verify the significance of the apparent positive studies *in vitro* were negative.

### Assessment Carcinogenicity:

This product contains substances that are considered to be probable or suspected human carcinogens as follows:

| Component  | Regulatory Agency Listing As Carcinogen |      |     |      |
|--|---|------|-----|------|
|  | ACGIH                                   | IARC | NTP | OSHA |
| Triphenyltin hydroxide<br>(As Organic Tin Compounds) | A4                                      | No   | No  | No   |
| Propylene Glycol                                     | No                                      | No   | No  | No   |
| Other Ingredients                                    | No                                      | No   | No  | No   |

## 12. ECOLOGICAL INFORMATION

### Ecotoxicity:

Data on TPTH Technical:

|   |          |   |               |
|---|----------|---|---------------|
| 96-hour LC <sub>50</sub> Bluegill:      | 23.0 ppb | Bobwhite Quail Dietary LC <sub>50</sub> : | 253 ppm       |
| 96-hour LC <sub>50</sub> Rainbow Trout: | 22.0 ppb | Mallard Duck Oral LD <sub>50</sub> :      | 378 mg/kg     |
| 48-hour EC <sub>50</sub> Daphnia:       | 10.0 ppb | Bees LD <sub>50</sub> :                   | >114.8 ug/bee |

### Environmental Fate:

Data indicates that TPTH binds strongly to soil, is stable to photolysis and resistant to photo degradation and hydrolysis. Because of its soil binding qualities, TPTH is not expected to leach to groundwater. However, TPTH could reach surface water through spray drift and run-off.

## 13. DISPOSAL CONSIDERATIONS

### Waste Disposal Method:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

### Container Handling and Disposal:

#### Nonrefillable Containers 5 Gallons or Less

Nonrefillable container: Do not reuse or refill this container. Triple rinse (or equivalent) promptly after emptying. Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. Plastic containers are also disposable by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

#### Nonrefillable containers larger than 5 gallons

Nonrefillable container. Do not reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying.

**Triple rinse as follows:** Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

**Pressure rinse as follows:** Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure-rinsing nozzle in the side of the container, and rinse at about 40 psi for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. Plastic containers are also disposable by incineration, or, if allowed by State and local authorities, by burning. If burned stay out of smoke.

#### Refillable containers

Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10% full with water. Agitate vigorously or recirculate water with the pump for two minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times.

### 14. TRANSPORTATION INFORMATION

Follow the precautions indicated in Section 7: HANDLING AND STORAGE of this SDS.

#### DOT

UN3020, Organotin pesticides, liquid, toxic, (Triphenyltin Hydroxide), 6.1, III, Marine Pollutant

#### IMDG

UN3020, Organotin pesticides, liquid, toxic, (Triphenyltin Hydroxide), 6.1, III, Marine Pollutant

#### IATA

### 15. REGULATORY INFORMATION

#### EPA FIFRA INFORMATION

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

**DANGER – POISON. Fatal if inhaled.** Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Do not breathe vapor or spray mist.

#### U.S. FEDERAL REGULATIONS

**TSCA Inventory:** This product is exempted from TSCA because it is solely for FIFRA regulated use.

#### **SARA Hazard Notification/Reporting:**

##### **Hazard Categories Under Criteria of SARA Title III Rules (40 CFR Part 370):**

Acute Health, Chronic Health

##### **Section 313 Toxic Chemical(s):**

Triphenyltin (CAS No. 76-87-6-9) 38.8 – 41.2% by weight in product

##### **Reportable Quantity (RQ) under U.S. CERCLA:**

None

##### **RCRA Waste Code:**

Under RCRA, it is the responsibility of the product user to determine at the time of disposal, whether a material containing the product or derived from the product should be classified as a hazardous waste.

**State Information:**

Other state regulations may apply. Check individual state requirements.

**California Proposition 65:** WARNING. This product contains chemicals known to the State of California to cause cancer or birth defects or other reproductive harm.

|                              |
|------------------------------|
| <b>16. OTHER INFORMATION</b> |
|------------------------------|

**National Fire Protection Association (NFPA) Hazard Rating:**

**Rating for this product: Health: 4    Flammability: 1    Reactivity: 0**

Hazards Scale: 0 = Minimal    1 = Slight    2 = Moderate    3 = Serious    4 = Severe

This Safety Data Sheet (SDS) serves different purposes than and DOES NOT REPLACE OR MODIFY THE EPA-ACCEPTED PRODUCT LABELING (attached to and accompanying the product container). This SDS provides important health, safety and environmental information for employers, employees, emergency responders and others handling large quantities of the product in activities generally other than product use, while the labeling provides that information specifically for product use in the ordinary course.

Use, storage and disposal of pesticide products are regulated by the EPA under the authority of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) through the product labeling, and all necessary and appropriate precautionary, use, storage, and disposal information is set forth on that labeling. It is a violation of Federal law to use a pesticide product in any manner not prescribed on the EPA-accepted label.

Although the information and recommendations set forth herein (hereinafter "Information") are presented in good faith and believed to be correct as of the date hereof, Nufarm Americas Inc. makes no representations as to the completeness or accuracy thereof. Information is supplied upon the condition that the persons receiving same will make their own determination as to its suitability for their purposes prior to use. In no event will Nufarm Americas Inc. be responsible for damages of any nature whatsoever resulting from the use of or reliance upon Information. NO REPRESENTATIONS OR WARRANTIES, EITHER EXPRESS OR IMPLIED, OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OF ANY OTHER NATURE ARE MADE HEREUNDER WITH RESPECT TO INFORMATION OR THE PRODUCT TO WHICH INFORMATION REFERS AND ALL SUCH WARRANTIES ARE HEREBY SPECIFICALLY DISCLAIMED.

**Date of Issue:**                      May 6, 2015

**Supersedes:**    July 19, 2012
