Page 2 of 4

- Extinguishing Media** : For large fires: use foam or water spray. For small fires: use dry chemical or carbon dioxide.
- Specific Hazards Arising from the Chemical** : May produce gases such as oxides of carbon, nitrogen and phosphorus. This product reacts with galvanized steel or unlined steel (except stainless) to produce hydrogen gas that may form a highly combustible gas mixture which could flash or explode.
- Special Fire Fight Proc** : Wear self-contained breathing apparatus and full protective clothing. Dike area to prevent runoff and contamination of water sources, especially if water is used to extinguish. Dispose of fire control water later.

6. Accidental Release Measures

- Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area.
- Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
- Emergency Procedures** : Prevent material from entering public sewer systems or any waterways. Do not flush to drain. Large spills to soil or similar surfaces may require removal of topsoil.
- Methods and Materials for Containment and Cleanup** : Pump any free liquid into an appropriate sealed container. Dike spill using absorbent or impervious materials such as earth, sand, or clay. Collect and contain contaminated absorbent and diking materials for disposal.

7. Handling and Storage

- Precautions for Safe Handling** : Avoid contact with eyes, skin and clothing. Avoid breathing spray mist. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then, wash thoroughly and put on clean clothing. Use only stainless steel, aluminum, fiberglass, plastic or plastic-lined containers to mix, store and apply spray solutions of this product. Do not use galvanized steel or unlined steel, except stainless steel.
- Conditions for Safe Storage** : Keep container closed to prevent spills and contamination. Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

8. Exposure Controls / Personal Protection

- TLV/PEL** : No TLV or PEL established for ingredients in this mixture.
- Appropriate Engineering Controls** : Use local exhaust at the point of generation.
- Personal Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.

9. Physical and Chemical Properties

- Odor/Appearance** : Pale yellow liquid with slight odor.
- Flash Point, °F** : Aqueous salt based composition
- Boiling Point, °F** : No data available
- Melting Point(Freezing point), °C** : No data available
- Vapor Pressure, mm Hg @ 20 °C** : No data available
- Vapor Density** : No data available
- Solubility in Water** : Soluble
