After first aid, get appropriate in-plant, paramedic, or community medical support.

Section 5—Fire and Explosion Hazard Data

Extinguishing Media: Water, dry extinguishing media, carbon dioxide, foam

Special Fire Fighting Procedures: Wear self-contained breathing apparatus and full bunker gear. Smoke and fumes from fire may contain hazardous components.

Hazardous Combustion Products: Carbon monoxide, carbon dioxide, hydrocarbons, nitrogen oxides, sulfur oxides. If product is heated above decomposition temperature, toxic vapors will be released.

Unusual Fire and Explosion Hazards: N/A

Section 6—Accidental Release Measures

Small Spills: Clean-up personnel should wear suitable personal protective clothing and equipment. Spills when handling should be cleaned up immediately to prevent spreading. Pick up with suitable absorbent material.

Large Spills: Clean-up personnel should wear suitable personal protective clothing and equipment. Pick up with suitable absorbent material. Place into suitable containers for reuse or disposal in a licensed facility. If application of spilled product is not possible, then spills should be contained and placed in suitable containers for disposal or beneficially used.

Containment: Do not release into sewers or waterways. Dike spills to prevent contamination to water supplies. After decontamination, spill area can be washed with water. Collect wash water for approved disposal.

Section 7—Precautions for Safe Handling and Use

Precautions to Be Taken in Handling and Storage: Store in cool, dry areas away from children, feed and food products and sources of heat. Immediately clean up spills that occur during handling or storage. Protect from temperatures below 0°C. Keep containers tightly sealed when not in use. Keep away from sources of ignition – No smoking.

Other Precautions: Consult Local, State, and Federal regulations pertaining to storage and disposal.

Section 8—Control Measures/Personal Protection

Respiratory Protection: Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear an MSHA/NIOSH-approved TC23C Chemical/Mechanical type filter system to remove a combination of particles, gas and vapors.

Ventilation: **Local Exhaust:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs. Local exhaust ventilation is preferred.

Protective Gloves: Wear chemically protective gloves.

Eye Protection: Wear protective eyeglasses with side-shields or chemical safety goggles. Contact lenses or not eye protective devices. Wear face shield if splashing hazard exists.

Other Protective Clothing or Equipment: Wear chemically protective boots, aprons, and gauntlets to prevent prolonged or repeated skin contact.
