| <b>APPLICATION METHOD &amp; SAFETY:</b>    | The product can be foliar and soil absorbed. It is high quality, pH balanced, non-corrosive, and can be applied thru any type of application equipment. It does not need special bio-stimulant injectors for its bio-stimulant additives. The Lubin Line promotes strong cell structure as well as vigorous root development.   |                           |              |                    |              |                              |     |  |      |                            |      |                |      |                   |  |
