

TECHNICAL INFORMATION BULLETIN
FOR THE USE OF GRANDEVO®
TO CONTROL SPOTTED WING DROSOPHILA (*Drosophila suzukii*) IN STONE FRUITS

FIFRA Section 2(ee) Recommendation

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the U. S. Environmental Protection Agency.

FOR USE IN ALL STATES WHERE CROP AND PEST(S) EXIST AND WHERE 2(EE) RECOMMENDATIONS ARE RECOGNIZED.

GRANDEVO®, EPA Reg. No. 84059-17

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GRANDEVO® is a biological insecticide/miticide containing fermentation solids of *Chromobacterium subtsugae* strain PRAA4-1^T for use on edible crops.

| CROP | PEST | RATE | USE DIRECTIONS |
|---|---|----------------------------|--|
| Stone Fruits including Apricots Cherry Nectarine Peach Plum Prune | Spotted Wing Drosophila (<i>Drosophila suzukii</i>) | 3 pounds Grandevo per acre | Ground Applications: Apply Grandevo® with a non-ionic spreader-wetter type surfactant, as a foliar spray using a water carrier volume of 100 gallons per acre to provide thorough coverage of infested plant parts. Grandevo® should be part of an integrated program for control of Spotted Wing Drosophila and rotation with other insecticides labeled for control of Spotted Wing Drosophila is recommended. The interval between successive applications of Grandevo should not exceed 7 days. In situations of heavy population pressure, to maintain control reduce the application interval and tank-mix Grandevo with another insecticide labeled for control of Spotted Wing Drosophila. |

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed.

This FIFRA Section 2(ee) recommendation contains new or additional directions for use of this product, which may not appear on the package label. Read and carefully observe the cautionary statements plus all the other information appearing on the product label.

This recommendation must be in the possession of the user at the time of pesticide application.
