DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read and follow all applicable instructions, restrictions, and precautions on the EPA-approved label. This label and the federally registered label for Aquathol K (EPA Reg. No. 70506-176) must be in the possession of the user at the time of pesticide application.

Apply Aquathol K at 1.9 to 3.2 gallons (3-5 ppm) per acre-ft to control *Nymphoides* spp. (floating-heart species). Applications should be made to actively growing plants.
