

PRODUCT INFORMATION BULLETIN

RESTRICTED USE PESTICIDE

Due to toxicity to aquatic invertebrate animals. For retail sale to and use only by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicator's certification.

MICROMITE[®] 80WGS INSECT GROWTH REGULATOR **EPA REG. NO. 400-487**

FIFRA 2(ee) RECOMMENDATION FOR USE WITHIN THE STATE OF CALIFORNIA.

Use of MICROMITE 80WGS for controlling katydids in California citrus only.

Apply 6.25 ounces of MICROMITE 80WGS per acre when early instar nymphs are foraging during the bloom through early fruit set period. MICROMITE 80WGS must be ingested and nymphs must molt before populations are reduced. MICROMITE 80WGS will not control katydids once in the adult insect stage.

Read and follow all applicable directions, restrictions, and precautions on the EPA registered label.

This recommendation must be in the possession of the user at the time of pesticide application.
