Garlon[®] 4 Ultra

EPA Reg. No. 62719-527

2(ee) Recommendation[†]
For Distribution and Use in New York State

Control of Swallow-wort in Non-Crop Areas

ATTENTION

[†] This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container for Garlon[®] 4 Ultra specialty herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Except as specified in this product bulletin, use of Garlon 4 Ultra is subject to all use precautions and limitations imposed by the label affixed to the container for Garlon 4 Ultra.

Follow all applicable General Use Precautions and Restrictions, Mixing Directions, and Application Methods on the label for Garlon 4 Ultra.

Use Garlon 4 Ultra for control of swallow-wort *Vincetoxicum nigrum* (L.) Moench and *Vincetoxicum rossicum* (Kleopov) Barbarich in non-crop areas. Apply 1 to 8 quarts per acre when plants are actively growing depending upon the total spray volume and presence of other hard to control weed species. Follow the personal protective equipment requirements on the label affixed to the container for Garlon 4 Ultra.

Restrictions:

- **Restricted Use Interval:** Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.
- Do not contaminate water, food, and feed or allow drift to come into contact with certain crops/sites listed on the container label.
