

FIFRA

Section 2(ee) Recommendation

Date: May 11, 2011

Product: Axial[®] Star Herbicide
EPA Registration No. 100-1389

Use: Tank mixture of Axial Star Herbicide with Starane[®] Herbicide for control of grass and broadleaf weeds in spring wheat (excluding durum), winter wheat and barley.

States: ID, WA

Directions for Use

Axial Star Herbicide at 16.4 fl. oz./A may be tank mixed with Starane* Herbicide up to 2.7 fl. oz./A for control of wild oat, volunteer oat, green foxtail, yellow foxtail, Italian ryegrass, and broadleaf weeds in spring wheat (excluding durum), winter wheat and barley.

*Other equivalent products containing the active ingredient fluroxypyr 1-methylheptyl ester may be used. Consult the specific product label for specified rates.

The user must refer to the federally approved Axial Star Herbicide label and labels of all products referenced in this recommendation and read and follow all applicable directions for use, restrictions and precautions.

It is a violation of federal law to use this product in a manner inconsistent with its labelling.

This recommendation should be in the possession of the user at the time of pesticide application.

This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the EPA.
