### 5. Fire Fighting Measures

- Extinguishing Media** : Non-combustible liquid. Use extinguishing media for underlying cause of fire.  
**Specific Hazards Arising from the Chemical** : Decomposes on heating to produce nitrogen oxides.  
**Special Fire Fight Proc** : Use positive pressure self-contained breathing apparatus with full protective clothing. Use water spray to keep fire exposed containers cool.

### 6. Accidental Release Measures

- Personal Precautions** : Keep unprotected and unnecessary personnel out of spill area.  
**Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.  
**Emergency Procedures** : Contain spill to prevent spreading to water, soil, drains or sewers.  
**Methods and Materials for Containment and Cleanup** : Mop up or pump up spilled liquid, then place in plastic containers. If uncontaminated, reuse as product. If contaminated, place material in plastic recovery drums for proper disposal.

### 7. Handling and Storage

- Precautions for Safe Handling** : Keep locked up and out of reach of children. Do not contaminate water, food or feed by storage, handling or disposal. Keep container tightly closed. Do not allow water to be introduced into the contents of the container.  
**Conditions for Safe Storage** : Store in original container only. Do not store near heat or open flame. Do not store with oxidizing agents or ammonium nitrate.

### 8. Exposure Controls / Personal Protection

- TLV/PEL** : No TLV or PEL established.  
**Appropriate Engineering Controls** : Local exhaust is normally sufficient.  
**Personal Protective Equipment** : Splashproof goggles or face shield, impervious gloves, impervious apron and footwear. Respiratory protection not normally needed. Eyewash and emergency shower should be available in work area.
