Grasp[®] Xtra

EPA Reg. No. 62719-610

Weed Control in Clearfield and Hybrid Rice (For Use and Distribution Only in the State of Mississippi)

ATTENTION

†This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by EPA.

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- Read the label affixed to the container for Grasp[®] Xtra herbicide before applying. Carefully follow all precautionary statements and applicable use directions except as specified below.
- Use of Grasp Xtra according to this Section 2(ee) recommendation is subject to all use precautions and limitations imposed by the label affixed to the container for Grasp Xtra.

Refer to the label affixed to the container for Grasp Xtra for general information, general use precautions and restrictions, mixing instructions, spray drift management, application instructions and resistance management.

Apply Grasp Xtra according to labeled weed sizes and species as a pre-flood application to any hybrid rice, or any Clearfield rice variety/hybrid, for control of weeds under normal soil pH conditions and to rice soils that are >pH 7.8. For best results, soils should be moist at application and maintain good soil moisture after application by flushing or rainfall until establishment of permanent flood. Reinfestation of some weeds may occur if a permanent flood is not established in a timely manner.
