

AERIAL APPLICATIONS

General Information

GENERAL INFORMATION

FS Talyx is an activator adjuvant specifically formulated to enhance the performance of a wide range of both systemic and contact fungicides and their tank mixes.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND, RIGHTS-OF-WAY, TURF AND OTHER APPROPRIATE USES. NOT FOR AQUATIC USE.

Refer in the label for mixing instructions.

Limitations, Restrictions, and Exceptions

DIRECTIONS FOR USE

FS Talyx increases the activity of many pesticides; therefore, take care when treating sensitive crops during periods of drought stress, high temperatures, or high humidity. It is critical that this product be used and mixed only as specified on the label. Follow directions carefully. Buyer and user assume all risk of use and/or handling. These risks include, but are not limited to damage to plants and/or crops to which the material is applied, or lack of complete control and damage caused by drift to other plants or crops. Such risks may occur even though the product is reasonably fit for use and label directions are followed. Timing, mixing, method of application, weather and other conditions are influencing factors in the use of this product and are beyond the control of GROWMARK.

SHAKE WELL BEFORE USING.
