

STONE FRUIT AND VEGETABLES

General Information

PrimaFresh 200 is a mineral oil emulsion formulated to coat stone fruit and vegetables, provide shine and minimize dehydration and/or loss of firmness. PrimaFresh 200 may be used as a vehicle for applying postharvest fungicides.

DIRECTIONS FOR USE

1. PrimaFresh 200 may be applied directly to clean and dried fruit, or it may be diluted with soft water before application. One gallon (3.8 l) of concentrated PrimaFresh 200 will treat 20,000 – 25,000 pounds (9100 – 11,300 kg) of fruit.
2. If mixing with post harvest fungicides, agitate continuously. May be injected into aqueous fungicide mixture.
3. Once opened, use entire contents within 45 days.
