

FOOD AREA APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY

General Information

General Information

This product is a ready-to-use bait for the control of ants, cockroaches, crickets and silverfish including:

- Ants: Argentine, Carpenter, Crazy, Little Black, Odorous House, Pavement, Pharaoh and Thief Ants.
- Cockroaches: American, Asian, Brown, Brown Banded, German, Oriental and Smokey Brown Cockroaches.
- Crickets: Camel, Field, House and Mole Crickets.
- DO NOT contaminate this product with other pesticides. If this product becomes contaminated with another pesticide it will lose its effectiveness.
- DO NOT apply directly to food. In commercial food handling facilities, cover or remove any food during application. In food handling areas, bait may be placed in removable trays. Always record the number and location of bait stations. This product may be used in an Integrated Pest Management program incorporating good sanitation practices.
- This product may be applied in appropriate areas with a power duster (except in California). Consult equipment manufacturer for recommended settings.
- Children and pets should not be in the treatment area until after application is completed.
- DO NOT treat pets with this product.
- Avoid contamination of feed and foodstuffs.
- Avoid contamination of ornamental plants.

Limitations, Restrictions, and Exceptions

FOOD AREA APPLICATION LIMITED TO CRACK & CREVICE TREATMENT ONLY (see following section). Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs and kitchen utensils. Apply, scattering/dusting under and behind refrigerator, cooler, stove, sink, dishwasher, washing machine and dryer tubs, counters, into openings around drains, water pipes and electrical

conduits, and in cracks and crevices along baseboards and corners of cabinets, counter tops, cupboards and closets. Remove all lower drawers in kitchen and bathroom cabinets, bedroom dressers and chests of drawers, then scatter/dust in drawer wells. Any bait visible after application must be brushed into cracks and crevices or removed. Reapply in seven days if necessary.

Crack & Crevice Applications

Apply as a Crack & Crevice treatment using most types of dust applicators. A bellows type duster works best. Insert stem into gaps, cracks and crevices and apply 2 to 6 puffs per foot, depending upon the severity of the infestation. Drill small holes to gain access into wall voids and under cabinets. Apply in appropriate areas with a power duster (except in California). Consult equipment manufacturer for recommended settings.

Application Sites and Directions

1. Apply under and behind appliances in kitchens, bathrooms and utility rooms (remove kick plates if possible).
2. Kitchen and bathroom cabinets and vanities often have a space between the floor and the bottom drawer or cabinet. If a gap exists along the top of the kick plate, dust this product into the void area. If no gaps are present, a small hole may be drilled every 2 feet along the kick plate making sure to drill at least 1 hole under each cabinet and apply this product through the holes.
3. Apply in voids around plumbing pipes behind water heaters and under sinks in kitchens, bathrooms, showers and utility rooms. Escutcheon plates around pipes should be pulled back to allow access to the void.
4. Remove electrical wall socket and switch covers and dust product around boxes and into voids. Product should not be applied directly into electrical switch and outlet boxes.
5. Cracks or spaces between the wall and doorframes, cabinets, counter tops, molding or baseboards provide excellent hiding places for roaches and ants. Dust a small amount of this product into these areas wherever possible.
6. Apply under and behind vending machines. If access can be gained to the interior of the machine, apply around the interior base being careful not to contaminate any foodstuffs.
