

## **SWEET POTATO**

### General Information

#### GENERAL INFORMATION

0.25 lbs/gal of Nitrogen, out of 1.00 lb/gal of the Total Nitrogen in the product, is controlled release. The product is recommended for use as a supplement to a regular fertilizer program only.

**PRECAUTION:** Use of the product in accordance with label directions is not expected to adversely affect normal vegetative and/or reproductive growth in most situations. However, various environmental and agronomic factors, such as crop stress associated with high temperatures and/or dry conditions, make it impossible to eliminate all risks associated with the use of the product; therefore, crop injury is always possible. The user assumes all risks of use and handling. In an effort to reduce the risk of crop injury, apply early morning or late evening.

Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan. Consult your local Helena Chemical Company representative for further information.

Refer table on the label for Application Factors.
