

TREES AND VINES: POST-HARVEST AND DORMANT

General Information

ProNatural B is a water soluble and fertilizer soluble source of boron. It may be mixed and applied with fertilizers or pesticides on soil or foliage. ProNatural B is compatible with metal sulfates, such as zinc sulfate solution.

Limitations, Restrictions, and Exceptions

Warning: This fertilizer contains Boron. Its use on any other plants or under any other conditions other than those specified on the label may result in plant injury.

Compatibility: Always add PVA (water-soluble bags) materials and thoroughly dissolve before adding ProNatural B to the mixture. Sufficient agitation should be used when dissolving this product in water. Always jar test new combinations for compatibility prior to field mixing.
