

CANE BERRIES AND BUSH BERRIES: BLACKBERRY, BLUEBERRY, BOYSENBERRY, AND RASPBERRY

General Information

FIRST CHOICE Neutralizer is a spreader sticker with a combined buffering agent for increasing the efficiency of various agricultural chemical applications by reducing the pH for highly alkaline waters.

Limitations, Restrictions, and Exceptions

DEFOLIANTS ON FIELD CROPS

The above minimum and maximum amounts of this material are suggested and will depend upon the total alkalinity of the water being used.

Some pesticides may require higher rates for optimum performance. Refer to the pesticide label for the manufacturer's recommended surfactant. Do not add this product at a rate which exceeds 5% of the finished spray volume.
